Carpathian Mountains The impending trip to Eastern Europe brought to remembrance the younger lives of Wilma and Cornell in Tvarozna and Poprad Slovakia Wilma Bullner and Cornell Klug lived twenty miles apart and were third cousins Although they lived close they were not acquainted as young people in 1895 As a girl Wilma spoke Slovak and German and found work as a language teacher Before the 1st World War Tvarozna was known as Durand a village of the Spis mostly populated with Germans whose families had formed the village during the 15th century Cornells family lived in Poprad and this is where Pauline spent most of her time while in Europe Paulines grandfather Gustav Klug was in the construction and other business ventures His fathers business was one Cornell desired but his older brother Emile was to inherit the business from Gustav Cornell was apprentintced to a tailor Cornell and Wilma immigrated to America at different times around 1901 They met and married in Philadelphia While in Philadelphia and during the roaring twenties they operated a delicatessen Pauline grew up with two brothers Erwin and Louis Pauline enjoyed an especially fond relationship with her brother Louis as they danced for fun and competition and enjoyed the same friends Wilma left for Europe leaving Cornell behind with her two boys to help Cornell in the store While Wilma was in Europe Cornell sold the store and took a job as an insurance salesman When Wilma returned from Europe she was understandably upset and took Cornell to task for selling the store Later Cornell purchased a gasoline service station and Pauline spent late hours with her father as he kept the store open late Pauline grew into a young woman She attended Temple University and majored in art While Pauline was in Europe Creston Smith ran away from an orphanage near Lancaster Pa He and his sister Edna had been placed in the orphanage because his father had recently died Creston was a frail youngster born prematurely and sickly Pauline and Creston met after a baseball practice in Philadelphia For months after they became acquainted Pauline pretended to only speak German This made it hard for Creston who finally found out the truth They were married in 1935 Raising a family was hard and work was harsh The family grew to five with one boy and two girls They moved frequently over America as Creston sought work during the depression Creston found work in the San Francisco ship yards building amphibious landing Craft during World War Two Louis was drafted into the Army and served in the African campaign under General Patton He fought against Rommel and was part of the invasion of Sicily in 1943 He was killed in fighting at Gala Bay Sicily July 10 1943 Pauline Creston and their family moved from California to Philadelphia to be with Wilma Cornell was bed ridden with arthritis The family was together again now and Wilma was able to relate the stories of the old country to her grandchildren The spirit of Tvarozna as a family home drew the family together even though they didnt live in Eastern Europe anymore      *Blitzkrieg to Desert Storm* Robert Michael Citino,2004 When Germany launched its blitzkrieg invasion of France in 1940 it forever changed the way the world waged war Although the Wehrmacht ultimately succumbed to superior Allied firepower in a two front war its stunning operational achievement left a lasting impression on military commanders throughout the world even if their own operations were rarely executed as effectively Robert Citino analyzes military campaigns from the second half of the twentieth century to further

demonstrate the difficulty of achieving decisive results at the operational level Offering detailed operational analyses of actual campaigns Citino describes how UN forces in Korea enjoyed technological and air superiority but found the enemy unbeatable provides analyses of Israeli operational victories in successive wars until the Arab states finally grasped the realities of operational level warfare in 1973 and tells how the Vietnam debacle continued to shape U S doctrine in surprising ways Looking beyond major power conflicts he also reveals the lessons of India s blitzkrieg like drive into Pakistan in 1971 and of the senseless bloodletting of the Iran Iraq War Citino especially considers the evolution of U S doctrine and assesses the success of Desert Storm in dismantling an entrenched defending force with virtually no friendly casualties He also provides one of the first scholarly analyses of Operation Iraqi Freedom showing that its plan was curiously divorced from the realities of military history grounded instead on nebulous theories about expected enemy behavior Throughout Citino points to the importance of mobility especially mobilized armor in modern operational warfare and assesses the respective roles of firepower training doctrine and command and control mechanisms Brimming with new insights Citino s study shows why technical superiority is no guarantee of victory and why a thorough grounding in the history of past campaigns is essential to anyone who wishes to understand modern warfare Blitzkrieg to Desert Storm provides that grounding as it addresses the future of operational level warfare in the post 9 11 era

**British Battle Tanks** David Fletcher, Steven J. Zaloga, 2018-08-23 This lavishly illustrated volume details the design development and operational history of US made tanks in British service in the Second World War The idea of British soldiers using American tanks was not viewed with a great deal of enthusiasm by the British Army They perceived American tanks as being crudely made mechanically unsophisticated and impossible to fight in However once British crews got used to them and learned to cope with some of their difficulties such as limited fuel capacity and unfamiliar fighting techniques they started to see them in a far more positive light in particular their innate reliability and simplicity of maintenance This book the last in a three part series on British Battle Tanks by armour expert David Fletcher concentrates on World War II and studies American tanks in British service some of which were modified in ways peculiar to the British It shows how the number of these tanks increased to the point that they virtually dominated as well describing some types such as the T14 and M26 Pershing which were supplied but never used in British service
