create papel picado with household scissors and after a bit of experimentation we came up with this easy method of producing your own stunning papel picado We made ours using crepe paper as it comes in lovely vibrant colors and we found it much easier to handle than tissue paper which tends to tear It also means that your papel picado last longer so you can use them again next year How to make a mini pinata Ever since we moved our family to South America we have all fallen head over heels for pinatas so it wasn't long until we felt compelled to try making one of our own Traditionally you beat a pinata with a stick until it exploded and all the yummy shiny contents fell to the ground Now days as a safer option pinatas often come with a string which you pull down on to release the contents We wanted to make a fully functioning mini pinata so ours too has a pull string It's been tried and tested by our children so we can report that it works beautifully Templates If you would like to use the templates shown in the tutorial photos they are all free with the book to download from the Happythought website We have also included templates in this book which you can photocopy and scale up to use for your projects copy by hand or use as inspiration for your own designs
