**Papyrological Primer. 2nd (English) Edition, by M. David and B. A. Van Groningen,...** Bernhard Abraham Van Groningen, Martin David, 1946      **Papyrological Primer. 2nd (English) Edition, by M. David and B. A. Van**

**Groningen,...** Bernhard Abraham Van Groningen, 1952      *The Book Before Printing* David Diringer, 2013-01-17 A remarkable work For sheer weight of information there is no equal to it The Spectator It is probable that the earliest books were written on wood or leaves as early as the fourth millennium B C These fragile materials unfortunately have not come down to us In their absence the earliest surviving books are the clay tablets of Mesopotamia the oldest attributed to c 3500 B C On these ancient clay shards dense rows of cuneiform script record the seminal writings of mankind the Gilgamesh epic Sumerian literary catalogues Babylonian astrology Assyrian accounts of the Creation and the Flood and the Lipit Ishtar Law Code c 2000 B C predating Hammurabi and the oldest law code in human history Probably as ancient as the Mesopotamian writings or nearly so are Egyptian hieroglyphics In a sense it is the papyrus scrolls of the Egyptians preserved by that country's hot dry climate that represent the true ancestors of the modern book As the centuries passed papyrus slowly gave way to parchment the prepared skins of animals as writing material Indeed the handwritten parchment or vellum codex is the book par excellence of the Middle Ages Western European book production is only part of the story and the author is at pains to illuminate the bibliographic contributions of numerous peoples and cultures Greek and Roman book production books made in central and southern Asia the books of Africa pre Columbian America and the Far East material that is often not mentioned in Western histories of the book Based on years of painstaking research and incorporating a wealth of new material and conclusions the text is enhanced throughout by abundant illustrations nearly 200 photographic facsimiles of priceless manuscripts in museums and libraries around the world

*The Oxford Handbook of Social Relations in the Roman World* Michael Peachin, 2011 The study of Roman society and social relations blossomed in the 1970s By now we possess a very large literature on the individuals and groups that constituted the Roman community and the various ways in which members of that community interacted There simply is however no overview that takes into account the multifarious progress that has been made in the past thirty odd years The purpose of this handbook is twofold On the one hand it synthesizes what has heretofore been accomplished in this field On the other hand it attempts to configure the examination of Roman social relations in some new ways and thereby indicates directions in which the discipline might now proceed The book opens with a substantial general introduction that portrays the current state of the field indicates some avenues for further study and provides the background necessary for the following chapters It lays out what is now known about the historical development of Roman society and the essential structures of that community In a second introductory article Clifford Ando explains the chronological parameters of the handbook The main body of the book is divided into the following six sections 1 Mechanisms of Socialization primary education rhetorical education family law 2 Mechanisms of

Communication and Interaction 3 Communal Contexts for Social Interaction 4 Modes of Interpersonal Relations friendship patronage hospitality dining funerals benefactions honor 5 Societies Within the Roman Community collegia cults Judaism Christianity the army and 6 Marginalized Persons slaves women children prostitutes actors and gladiators bandits The result is a unique up to date and comprehensive survey of ancient Roman society *Moral Education for Women in the Pastoral and Pythagorean Letters* Annette Huizenga,2013-03-27 In Moral Education for Women in the Pastoral and Pythagorean Letters Philosophers of the Household Annette Bourland Huizenga examines the Greco Roman moral philosophical curriculum for women by comparing these two pseudepigraphic epistolary collections The analysis is organized around four elements textual resources teachers and learners instructional strategies and subject matter Huizenga shows that the author of the Pastorals has adopted nearly all of the pagan aspects of this curriculum but has supplemented these with theological justifications drawn from Pauline literature and traditions The letters attributed to female Pythagoreans have long been suggested as comparanda for the Pastorals but are not well known as sources This volume provides a Greek edition a new English translation and a text history of these letters *The Oxford Handbook of Greek Cities in the Roman Empire* ,2024-11-13 This handbook provides the first comprehensive treatment of the Greek cities in the Roman Empire The poleis are studied here both as urban forms with a specific organization of space and specific public buildings and as socio political entities with specific institutions and social hierarchies The contributions cover all the important aspects of civic life and present the on going debates on the degree of integration and autonomy uniformization and diversity of the Greek civic model in the Roman Empire One of the main guidelines of the handbook is the issue of the impact of Roman rule on the long lasting Greek model of political social and spatial organization Geographically the volume covers the whole Roman Empire with a focus on regions where the Greek polis was the dominant form of organization such as mainland Greece the Aegean Islands Asia Minor Syria and the Black Sea region In addition to that the Greek cities of Sicily and Egypt as well as more isolated Greek settlements such as Cyrene in North Africa are also considered The chronological scope of the handbook runs from a community s integration into the Roman Empire varying depending on the region until the 3rd c AD when the epigraphic documentation strongly decreases and some important changes make way for the transition to Late Antiquity
