14 Days to a Wellness Lifestyle Donald B. Ardell, 1982

Abstract: A systematic approach to good health focuses on providing information and motivation. Exercises and checklists encourage participation. The wellness lifestyle is based upon self responsibility, nutritional awareness, physical fitness, stress management, and environmental sensitivity. Topics include perspectives on the medical system, hazardous cultural norms, creating a healthy self image, self responsibility, and physical fitness. A lesson on eating for performance encourages the use of fruits, vegetables, and whole grains. Salt, refined sugars, caffeine, soft drinks, and alcohol are not positive foods in a wellness supportive environment. Successful wellness programs from around the US are described. An annotated list of recommended readings is included, a list of music recommended to accompany the program, and an included rkm.
