

How to **STACK A HABIT**

1

Identify existing habits

if you already have a habit of drinking a glass of water in the morning, take note of it.

2

Determine your goal

Let's say your goal is to improve your physical fitness and incorporate exercise into your routine.

3

Choose an anchor habit

Use your existing habit as a trigger. After drinking your morning glass of water, perform a 5-minute stretching routine.

4

Select a new habit to stack

Add a new habit that complements your goal. After stretching, follow it up with a 10-minute workout session.

5

Start small and build momentum

Begin with manageable actions. Gradually increase the duration or intensity of your workouts as you become more comfortable.

Remember, small changes can lead to big results. Start habit stacking now and witness the power of positive routines in your daily life.
