The Persephone Myth in Young Adult Fiction Cristina Salcedo

González,2024-12-12 Investigating the widespread but understudied presence of the Persephone myth within 21st century young adult literature Cristina Salcedo Gonz lez analyses six young adult novels which incorporate a reworking of this ancient Greek myth Through the identification of mythic themes mythemes and patterns within these novels Gonz lez shows

that these works evoke the female life cycle and develop current perceptions of the female maturational experience As a result Salcedo Gonz lez makes an important contribution in establishing the cultural significance of young adult literature in the world of classical reception These novels all written by women also inflect or interpret the myth in ways influenced by their contemporary contexts specifically the impact of the novels target readership on the aspects of the myth that are either emphasised e g Persephone s descent into the underworld her existence there and her re ascent or de emphasised e g the mourning and wanderings of Demeter This book makes original methodological contributions through its innovative dual perspective of myth criticism and classical reception to our understanding of the academically neglected genre of young adult literature and the reception of the myth of Persephone As a result Salcedo Gonz lez significantly contributes to establishing the cultural significance of young adult literature within the realm of classical reception

**The Digital Future of English** Simone Murray, 2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book s imminent demise presented a simplistic either or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline s founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future

**How to Publish Academic Books: A Guide to Publishing Monographs, Edited Volumes, Textbooks, and Theses** Nitin Liladhar Rane, Saurabh Choudhary, Jayesh Rane, 2024-12-05 The academic book publishing sector has a key function when it comes to knowledge production and

dissemination across various disciplines For researchers scholars and educators the process of moving from concept to publication is rarely a trivial task and often involves the use of imagination perseverance and teamwork Publishing a monograph an edited volume or a textbook or turning your thesis into a book can be painful This book will help you demystify the world of academic book publishing offering authors a guide to navigating the complicated process with success This guide aims to provide authors with the knowledge of tools and resources needed to publish a book that reflects their research If you want a sneak peek into the workings of scholarly publishing it features advice from senior authors publishers and academics with an intimate familiarity with the academic publishing process Divided into chapters the book covers the major elements of the publishing journey steps to writing the proposal advice on working with publishers and challenges of the current moment like open access and new fields of study The first step to getting published is learning to write a scholarly manuscript or book proposal Writers need to know how to present their research in front of potential publishers It necessitates then not just a firm grasp on the work in question but a facility for conveying the relevance of the work and its potential to make a difference Therefore it is very important to tread carefully through the relationship with the publishers as the success of publishing partnerships relies heavily on trust collaboration and shared vision for the book Open access publishing for scientific journals has played an increasingly important role in the ever evolving academic world There are new ways for authors to disseminate their work and increase the accessibility of research through open access It is an exciting time to be an author but it is also a challenging time in terms of financial viability and finding new publishing models This section deeply studies the influence of open access so that authors can better develop books around it Many students work years on their theses and getting them published can greatly aid their academic careers It is not simply editing this means changing the format to suit for wider academic publication and conforming to the expectations of the publisher This book is a road map for authors making this transition For authors in emerging or interdisciplinary fields publishing can bring unique challenges There may not be established publishing pathways in these fields or the intended audience may be smaller and more specialized Despite these challenges there are great rewards to publishing in such fields and this book outlines strategies to achieve their success Authors will discover how to seek the ideal publisher determine their target market and how to frame their work to have a noteworthy effect in their area Technological advancements global trends and academic expectations have all combined to shape the future of academic book publishing By the end of this book readers will be equipped with a fundamental understanding of the academic publishing process From preparing manuscripts and working with publishers to navigating new models of publishing this guide arms authors with practical advice and strategies to ensure their research becomes a published book It is our goal that this book helps those who hope to disseminate their research through publication of scholarly books
