## Natural Style:

*Multivariate Applications in the Social Sciences* N. Hirschberg, L. G. Humphreys, 2014-01-14 First published in 1982 Textbooks in multivariate methods proliferate but there are few books concerned with their application Experimental psychology and its associated method of statistical data analysis analysis of variance has tended to dominate psychological thinking even in such areas as social and clinical psychology two areas that are particularly ill suited to simple analysis of variance statistical models The recent emphasis of clinical and social psychology on applied research relevant to social problems requires that more attention be paid to multivariate methods and appropriate research designs this book illustrates and examines the multivariate approach alone this does not imply that a multivariate approach combined with an experimental approach would not in the long run provide the best overall research design The present collection of multivariate applications introduces some of the kinds of research problem that can be tackled by means of multivariate statistical analysis

*Dropping Ashes on the Buddha* Stephen Mitchell, 2007-12-01 The classic guide for Zen students pursuing the true way Somebody comes into the Zen center with a lighted cigarette walks up to the Buddha statue blows smoke in its face and drops ashes on its lap You are standing there What can you do This is a problem that Zen Master Seung Sahn was fond of posing to his American students who attended his Zen centers Dropping Ashes on the Buddha is a delightful irreverent and often hilariously funny living record of the dialogue between Korean Zen Master Seung Sahn and his American students Consisting of dialogues stories formal Zen interviews Dharma speeches and letters using the Zen Master's actual words in spontaneous living interaction this book is a fresh presentation of the Zen teaching method of instant dialogue between Master and student which through the use of astonishment and paradox leads to an understanding of ultimate reality

**Building the National Parks** Linda Flint McClelland, 1998 The Office of Strategic Services the forerunner of the Central Intelligence Agency was founded in 1942 by William Wild Bill Donovan under the direction of President Roosevelt who realized the need to improve intelligence during wartime A rigorous recruitment process enlisted agents from both the armed services and civilians to produce operational groups specializing in different foreign areas including Italy Norway Yugoslavia and China At its peak in 1944 the number of men and women working in the service totaled nearly 13 500 This intriguing story of the origins and development of the American espionage forces covers all of the different departments involved with a particular emphasis on the courageous teams operating in the field The volume is illustrated with many photographs including images from the film director John Ford who led the OSS Photographic Unit and parachuted into Burma in 1943
