Curing the Philosopher's Disease Richard H. Jones, 2009-09-28 **Curing the Philosopher's Disease** is a philosophical examination of the mysteries surrounding the foundations of science philosophy and religion Much of Western philosophy and science is discussed in order to see our epistemological and metaphysical situation The love hate relation philosophers have with mystery is explored as are the contributions of reductionists and antireductionists postmodern relativists and critical realists naturalists and the religious and theologians and mystics The thrust of the arguments affirms that there are limits to what philosophy science religion and mystical experiences can tell us about reality By acknowledging that some questions may be unanswerable and understanding the importance of that fact even as the answers remain ambiguous our true situation in the world is revealed Mystery should be reinstated as a basic feature when we reflect upon the nature of what we know and who we are Mystery frames all of our claims to fundamental knowledge and we must accept that it will remain a permanent fixture Thus the importance of mystery needs to be reaffirmed today during an era when the fullness of reality is often ignored **The Florida Naturalist**, 1927 Vols for 1962 accompanied by a newsletter with the same title issued during the other months of the year **Naturalist's World**, 1884 **Naturalist notes** Malton field naturalists' and scientific society, 1894 **The Ottawa Naturalist**, 1904 A Naturalist's Note-book in China Arthur de Carle Sowerby, 1925 *Fins, Feathers and Fur*, 1926 **Essex Naturalist**, 1930
