Handbook of Natural Colorants Thomas Bechtold, Avinash P. Manian, Tung Pham, 2023-04-10

Handbook of Natural Colorants Second Edition A detailed survey of a variety of natural colorants and their different applications including textiles polymers and cosmetics. Colorants describe a wide range of materials such as dyes pigments inks paint or chemicals which are used in small quantities but play an important role in many products such as textiles polymers food and cosmetics. As the effects of climate change begin to be felt there has been a shift in focus in the field to renewable resources and sustainability and an interest in the replacement of oil based products with greener substitutions. As the push to adopt natural resources grows there have been significant developments in the research and application of natural colorants as a step in the transition to a bio based economy. The second edition of Handbook of Natural Colorants provides a detailed introduction to natural colorants in a marriage of theory and practice from seed of plant to consumer demand. Presenting a wide range of viewpoints the book briefly discusses the history of coloration technology and the current position of natural colorants before highlighting detailed information on regional plant source availability, colorant production and properties as well as analytical methods for isolation, identification and toxicity aspects. It also presents key applications in technical use and consumer products including the use of natural colorants in textiles, hair dyeing, printing and packaging. Finally the text considers environmental and economic aspects of natural colorants. Handbook of Natural Colorants is a useful reference for dyers, textile producers and researchers in the evolving field of sustainable chemistry, environmental sciences, agricultural sciences and polymer sciences. Revised and updated content throughout to reflect developments in research and applications over the past decade. New content on biotechnology in natural colorant production, natural colorants for mass coloration, polymers, natural colorants in printing, packaging and plant based pigments. Discusses strategies for scale up including
