*Nature Mysticism* J. Mercer, 2012-08-02 The subject is Nature Mysticism The phenomena of nature are to be studied in their mystical aspects The wide term Mysticism is used because in spite of many misleading associations it is hard to replace Love of nature is too general cosmic emotion is too specialised But let it at once be understood that the Mysticism here contemplated is neither of the popular nor of the esoteric sort In other words it is not loosely synonymous with the magical or supernatural nor is it a name for peculiar forms of ecstatic experience which claim to break away from the spheres of the senses and the intellect It will simply be taken to cover the causes and the effects involved in that wide range of intuitions and emotions which nature stimulates without definite appeal to conscious reasoning processes Mystic intuition and mystic emotion will thus be regarded not as antagonistic to sense impression but as dependent on it not as scornful of reason but merely as more basic and primitive
