Delivered at Yale University by Benjamin N Cardozo Included are The Method of Philosophy The Methods of History  
Tradition and Sociology The Method of Sociology The Judge as a Legislator and Adherence to Precedent The Subconscious  
Element in the Judicial Process Includes numerous notes on the lectures The Nature of the Judicial Process Benjamin  
Nathan Cardozo, 1939 **The Nature of the Judicial Process** Benjamin Cardozo, 2010-11-01 This legendary book by  
Justice Benjamin N Cardozo explains in detail and with his famous style how judges make decisions Asked What is it that I do  
when I decide a case To what sources of information do I appeal for guidance Cardozo answered in timeless prose This book  
is still read today by lawyers and judges law students and scholars historians and political scientists and philosophers anyone  
interested in how judges really think and the many decisional tools they employ Already famous at the time for his trenchant  
and fluid opinions as a Justice on New York s highest court he is still studied on questions of torts contracts and business law  
and later a Justice of the U S Supreme Court Cardozo filled the lecture hall at Yale when he finally answered the frank query  
into what judges do and how do they do it The lectures became a landmark book and a source for all other studies of the  
ways of a judge The Nature of the Judicial Process Andrew L. Kaufman (ed.), 2010-08-02 Modern compilation and

from the publisher Not indexed Not illustrated 1921 edition Excerpt Lecture IV Adherence to Precedent The Subconscious  
Element in the Judicial Process Conclusion THE system of law making by judicial decisions which supply the rule for  
transactions closed before the decision was announced would indeed be intolerable in its hardship and oppression if natural  
law in the sense in which I have used the term did not supply the main rule of judgment to the judge when precedent and  
custom fail or are displaced Acquiescence in such a method has its basis in the belief that when the law has left the situation  
uncovered by any pre existing rule there is nothing to do except to have some impartial arbiter declare what fair and  
reasonable men mindful of the habits of life of the community and of the standards of justice and fair dealing prevalent  
among them ought in such circumstances to do with no rules except those of custom and conscience to regulate their  
conduct The feeling is that nine times out of ten if not oftener the conduct of right minded men would not have been different  
if the rule embodied in the decision had been announced by statute in advance In the small minority of cases where

ignorance has counted it is as likely to have affected one side as the other and since a controversy has arisen and must be determined somehow there is nothing to do in default of a rule already made but to constitute some authority which will make it after the event Some one must be the loser it is part of the game of life we have to pay in countless ways for the absence of prophetic vision No doubt the ideal system if it were attainable would be a code at once so flexible and so minute as to supply in advance for every conceivable situation the just and fitting rule But life is too complex to

Kaufman, 1998 Benjamin Nathan Cardozo unarguably one of the most outstanding judges of the twentieth century is a man whose name remains prominent and whose contributions to the law remain relevant This first complete biography of the longtime member and chief judge of the New York Court of Appeals and Justice of the Supreme Court of the United States during the turbulent years of the New Deal is a monumental achievement by a distinguished interpreter of constitutional law Cardozo was a progressive judge who understood and defended the proposition that judge made law must be adapted to modern conditions He also preached and practiced the doctrine that respect for precedent history and all branches of government limited what a judge could and should do Thus he did not modernize law at every opportunity In this book Kaufman interweaves the personal and professional lives of this remarkable man to yield a multidimensional whole Cardozo's family ties to the Jewish community were a particularly significant factor in shaping his life as was his father's scandalous career and ultimate disgrace as a lawyer and judge Kaufman concentrates however on Cardozo's own distinguished career including twenty three years in private practice as a tough minded and skillful lawyer and his classic lectures and writings on the judicial process From this biography emerges an estimable figure holding to concepts of duty and responsibility but a person not without frailties and prejudice     *Nature of the Judicial Process* S.
