Nature Spirits:

Encounters with Nature Spirits R. Ogilvie Crombie, 2018-10-09 A fascinating first hand account of the vast powers and true nature of the Elemental Kingdom Reveals deep wisdom eloquently shared through the author's encounters with the great God Pan and his elemental subjects Offers a glimpse into the hidden layers of the natural world and the workings of the elemental kingdom Includes chapters by Mike Scott David Spangler Dorothy Maclean and Brian Nobbs as well as beautiful illustrations by fine artist Elise Hurst who perfectly captures the energy of the natural world and its subjects as we might perceive them Paper with French flaps To anyone who may have expressed a wish to see and talk to nature spirits remember it took 63 years for my wish to be granted so don't lose hope Have you ever wished for something with your whole heart As a child R Ogilvie Crombie Roc made a wish as he dropped a penny into a wishing well he asked to be able to see fairies and talk to them In Encounters with Nature Spirits we follow Roc's path as many years later he meets the faun Kurmos in the Royal Botanic Garden in Edinburgh discovers the realm of the elementals and eventually meets the great god Pan himself In his conversations with Pan elves and other nature spirits Roc realizes that the elemental realm is vastly more powerful than our human kingdom and possesses an ability to create far beyond our human means Through his experiences Roc becomes closely involved with the Findhorn Community in northeast Scotland where he meets further elementals who give him sound advice as to how the famous Findhorn gardens should be cared for in order to work in harmony with nature Encounters with Nature Spirits is a reminder to us all of the importance of our relationship with the nature kingdom Through his example Roc places emphasis on connecting and working in harmony with nature spirits True co creation with nature working with rather than against the elemental kingdom can bring about vital positive change to our endangered eco system The elementals are open to working with mankind the question is are we humans open to engaging with and respecting them again

Nature Spirits Rudolf Steiner, 2013-04-17 Based on knowledge attained through his highly trained clairvoyance Rudolf Steiner contends that folk traditions regarding nature spirits are based on spiritual reality He describes how people possessed a natural spiritual vision in ancient times enabling them to commune with nature spirits These entities which are also referred to as elemental beings became immortalised as fairies and gnomes in myth legend and children's stories Today says Steiner the instinctive understanding that humanity once had for these elemental beings should be transformed into clear scientific knowledge He even asserts that humanity will not be able to reconnect with the spiritual world if it cannot develop a new relationship to the elementals The nature spirits themselves want to be of great assistance to us acting as emissaries of higher divine spiritual beings

In this remarkable book, Wolfgang Weirauch interviews Verena and through her we learn what fire spirits, air spirits, water spirits, and stone spirits have to say, as well as hearing from a glass spirit, two house spirits, a salt spirit, a paper spirit, and a silver spirit. The spirits speak about their involvement with nature and their lack of contact with human beings. They tell of the secrets of the cosmos and about humankind's past and future. They have views on the environment, on natural disasters, good and evil, and love and redemption. The interviews, some with the spirits themselves, throw up beautiful but sometimes disturbing descriptions of our world.

Fairies, Demons, and Nature Spirits Michael Ostling, 2017-11-23. This book examines the fairies, demons, and nature spirits haunting the margins of Christendom from late antique Egypt to early modern Scotland to contemporary Amazonia. Contributions from anthropologists, folklorists, historians, and religionists explore Christian strategies of encompassment and marginalization and the small gods' undisciplined tendency to evade such efforts at exorcism. Lurking in forest or fairy mound, chuckling in dark corners of the home or of the demoniac's body, the small gods both define and disturb the borders of a religion that is endlessly syncretistic and in endless active denial of its own syncretism. The book will be of interest to students of folklore, indigenous Christianity, the history of science, and comparative religion. **Prayers to the Nature Spirits** Julia Cameron, 1999.
