*The Goddess in the Garden* Carolyn Zonailo,2002 We're back in the garden but something's changed This is the Garden of the Great Mother Goddess where the drama of relationships between women as daughters mothers sisters and between women and men as lovers and friends casts a surprising light on the concept of Paradise    **The Moon with Mars in Her Arms** Carolyn Zonailo,2006 A compelling new volume from one of Canada's most esteemed voices in poetry the moon with mars in her arms is an important work delving deep into the heart of life death and rebirth Starting from Jungian archetypes Zonailo combines the personal and the universal to evoke eternal truths of the human condition in language both sensual and spare    **Imprints and Casualties** League of Canadian Poets. **Deep Spirit & Great Heart** Louis Silverstein,2002-04-02 A first person account of thoughtful healing and provocative excursions into the material and spiritual realms of existence while under the influence of cannabis sativa Captured in words by Ganja and given to Louis to be the journal keeper we read of journeys into the positive use as contrasted to abuse of a gift bestowed upon humans by the gods Be it described as a plant teacher or a weed marijuana has been used across cultures throughout the ages to reveal multiple realms of consciousness and to introduce new ways of being to those who have come to respect its powers and accord marijuana the reverence it deserves in order to unleash its full potential to make of life a rapturous experience Journal entries that tell of a joyous daily existence awareness of eternal truths sexual ecstasy and spiritual enlightenment are to be found within the pages of this book as we read of Ganja's travels into the land of Deep Spirit and Great Heart where we come to realize that heaven is not a place but a state of consciousness    **Canadian Books in Print** ,2001    **Praeambula Fidei** Ralph McInerny,2006-10 The *praeambula fidei* preambles of faith are regarded by Thomas Aquinas as the culmination of philosophy natural theology the highest knowledge

of God that is possible on philosophical grounds alone. The natural home for such considerations is the Metaphysics of Aristotle and Thomas's commentary on that work. Yet Thomas's view has been cast into doubt with philosophers and theologians alike attempting to drive a wedge between Aquinas and Aristotle. In this book renowned philosopher Ralph McInerny sets out to review what Thomas meant by the phrase and to defend a robust understanding of Thomas's teaching on the subject. After setting forth different attitudes toward proofs of God's existence and outlining the difference between belief and knowledge, McInerny examines the texts in which Thomas uses and explains the phrase 'preambles of faith'. He then turns his attention to the work of eminent twentieth century Thomists and chronicles their abandonment of the preambles. He draws a contrast between this form of Thomism and that of the classical Dominican commentators, notably Cajetan, arguing that part of the abandonment of the notion of the preambles as philosophical involves a misreading and misrepresentation of Cajetan. McInerny concludes with a positive rereading of Aristotle's Metaphysics and Aquinas's use thereof. In the end the book argues for a return to the notion of Aristotelico Thomistic philosophy as the organic development of the thought of Aristotle.

**Pluralism Comes of Age** Charles H. Lippy, 2015-05-20. This acclaimed work surveys the varied course of religious life in modern America. Beginning with the close of the Victorian Age, it moves through the shifting power of Protestantism and American Catholicism and into the intense period of immigration and pluralism that has characterized our nation's religious experience.

A from the year 2008 in the subject American Studies Literature grade 1 3 Ernst Moritz Arndt University of Greifswald Institut für Anglistik Amerikanistik 64 entries in the bibliography language English abstract Canada has always been associated with its landscape with a vast and inviolate nature including prairies, forests with innumerable lakes, idyllic mountain ranges and the Arctic barrens in the far north. With an area of almost 10 million square kilometers, Canada is the second largest country in the world but with only 31 million people living there and a population density of 3.2 inhabitants per square kilometer, it is also the less populated. 1 The theme of nature and wilderness has also been reflected throughout Canadian literary tradition. As Canadian author Aritha van Herk notes, the impact of landscape on artist and artist on landscape is unavoidable. 1992 139 Adopting the northern concepts of early explorers and settlers most literature about the Canadian wilderness has been written by male authors. For a long time the Canadian North served as background for historical romances and adventure stories. The response to the landscape was often very negative, the wilderness was described as being hostile and dangerous. Parallel to that image the landscape was portrayed in female terms as being innocent, inviolate and beautiful. The Canadian North appeared as a femme fatale. Especially in its beginnings, Canadian literature was strongly influenced by its American and British predecessors and the early writers reinforced the myth of the Canadian North. In the early twentieth century the North was mainly a place of retreat for the fictive heroes of the South who

went from the city to the wilderness to find themselves One of the most famous texts of this time is Frederick Philip Grove s autobiography In Search of Myself 1946 His journey to the North became a synonym for the search of the own self Three anti-Pelagian treatises, tr. by F.H.
