Wastelanding Traci Brynne Voyles, 2015-05-15 *Wastelanding* tells the history of the uranium industry on Navajo land in the U S Southwest asking why certain landscapes and the peoples who inhabit them come to be targeted for disproportionate exposure to environmental harm Uranium mines and mills on the Navajo Nation land have long supplied U S nuclear weapons and energy programs By 1942 mines on the reservation were the main source of uranium for the top secret Manhattan Project Today the Navajo Nation is home to more than a thousand abandoned uranium sites Radiation related diseases are endemic claiming the health and lives of former miners and nonminers alike Traci Brynne Voyles argues that the presence of uranium mining on Din Navajo land constitutes a clear case of environmental racism Looking at discursive constructions of landscapes she explores how environmental racism develops over time For Voyles the wasteland where toxic materials are excavated exploited and dumped is both a racial and a spatial signifier that renders an environment and the bodies that inhabit it pollutable Because

environmental inequality is inherent in the way industrialism operates the wasteland is the other through which modern industrialism is established In examining the history of wastelanding in Navajo country Voyles provides an environmental justice history of uranium mining revealing how just as civilization has been defined on and through savagery environmental privilege is produced by portraying other landscapes as marginal worthless and pollutable **Explorers Journal** Ernest Ingersoll,1965 **Tall Woman** Rose Mitchell,2001 Portrays Navajo weaver and midwife Tall Woman who held onto traditional Navajo ways raised twelve children and cared for the farm throughout her marriage to political leader and Blessingway singer Frank Mitchell **Frontiersmen in Blue** Robert Marshall Utley,1967-01-01 Frontiersmen in Blue is a comprehensive history of the achievements and failures of the United States Regular and Volunteer Armies that confronted the Indian tribes of the West in the two decades between the Mexican War and the close of the Civil War Between 1848 and 1865 the men in blue fought nearly all of the western tribes Robert Utley describes many of these skirmishes in consummate detail including descriptions of garrison life that was sometimes agonizingly isolated sometimes caught in the lightning moments of desperate battle **John Charles Fremont** Andrew F. Rolle,1999-03-01 As an explorer John Charles Fremont led five expeditions into the American West two of them disastrous He was also one of California's first two senators 1850 America's first Republican candidate for president 1856 a Civil War general and the territorial governor of Arizona 1878-83 But his life was one of rash and rebellious conduct against authority During the Mexican War he claimed to be the military governor of California which resulted in a court martial in 1848 At the outbreak of the Civil War he reentered the army as one of four major generals outranking even Ulysses S Grant However when he antagonized President Abraham Lincoln by issuing his own emancipation proclamation in advance of the president's Lincoln relieved him of command In this comprehensive biography Andrew Rolle carefully examines the historical record with a psychobiographical approach that explores and explains the many irrationalities of Fremont's character *Military Campaigns in the Navajo Country, Northwestern New Mexico, 1800-1846* John Philip Wilson,1967 **The Journal of American Folklore** ,1914 **Western Art, Western History** Ron Tyler,2019-03-07 For nearly half a century celebrated historian Ron Tyler has researched interpreted and exhibited western American art This splendid volume gleaned from Tyler's extensive career of connoisseurship brings together eight of the author's most notable essays reworked especially for this volume Beautifully illustrated with more than 150 images Western Art Western History tells the stories of key artists both famous and obscure whose provocative pictures document the people and places of the nineteenth century American West The artists depicted in these pages represent a variety of personalities and artistic styles According to Tyler each of them responded in unique ways to the compelling and exotic drama that unfolded in the West during the nineteenth century an age of exploration surveying pleasure travel and scientific discovery In eloquent and engaging prose Tyler unveils a fascinating cast of characters including the little known German Russian artist Louis Choris who served as a draftsman on the second Russian

circumnavigation of the globe the exacting and precise Swiss artist Karl Bodmer who accompanied Prince Maximilian of Wied on his sojourn up the Missouri River and the young American Alfred Jacob Miller whose seemingly frivolous and romantic depictions of western mountain men and American Indians remained largely unknown until the mid twentieth century Other artists showcased in this volume are John James Audubon George Caleb Bingham Alfred E Mathews and finally Frederic Remington who famously sought to capture the last glimmers of the old frontier A common thread throughout Western Art Western History is the important role that technology especially the development of lithography played in the dissemination of images As the author emphasizes many works by western artists are valuable not only as illustrations but as scientific documents imbued with cultural meaning By placing works of western art within these broader contexts Tyler enhances our understanding of their history and significance

The American West ,1964 **The Publishers' Trade List Annual** ,1978 *The Kiva* ,1979 Northern Navajo Frontier 1860 1900 Robert Mcpherson,2001-10

The Navajo nation is one of the most frequently researched groups of Indians in North America Anthropologists sociologists historians and others have taken turns explaining their views of Navajo history and culture A recurrent theme throughout is that the U S government defeated the Navajos so soundly during the early 1860s that after their return from incarceration at Bosque Redondo they were a badly shattered and submissive people The next thirty years saw a marked demographic boom during which the Navajo population doubled Historians disagree as to the extent of this growth but the position taken by many historians is that because of this growth and the rapidly expanding herds of sheep cattle and horses the government beneficently gave more territory to its suffering wards While this interpretation is partly accurate it centers on the role of the government the legislation that was passed and the frustrations of the Indian agents who rotated frequently through the Navajo Agency in Fort Defiance New Mexico and ignores or severely limits one of the most important actors in this process of land acquisition the Navajos themselves Instead of being a downtrodden group of prisoners defeated militarily in the 1860s and dependent on the U S government for protection and guidance in the 1870s and 80s they were vigorously involved in defending and expanding the borders of their homelands This was accomplished not through war and as a concerted effort but by an aggressive defensive policy built on individual action that varied with changing circumstances Many Navajos never made the Long Walk to Bosque Redondo Instead they eluded capture in northern and western hinterlands and thereby pushed out their frontier This book focuses on the events and activities in one part of the Navajo borderlands the northern frontier where between 1860 and 1900 the Navajos were able to secure a large portion of land that is still part of the reservation This expansion was achieved during a period when most Native Americans were losing their lands
