Near a Thousand Tables Felipe Fernández-Armesto, 2002 Every ingredient of our past and present can be read off our plates our identity our place in society and the place of our society in the world In *Near a Thousand Tables* Oxford historian Felipe Fernandez Armesto author of *Civilizations* tells the fascinating story of food as cultural as well as culinary history ecology as well as gastronomy Because cuisine is a perhaps the defining characteristic of a culture *Near a Thousand Tables* is a sampler of civilizations even more it is an exploration in historical ecology and even of the history of science Above all perhaps because food is universally appealing this is always even at its most instructive unashamedly a book about the pleasures of eating pleasures that have been immortalized by everyone from Homer to M F K Fisher
