John William Miller

Nature Madness:

Modernity and Crisis in the Thought of Michel Foucault Matan Oram, 2016-07-01 Few studies of Foucault have examined his thought from a sustained interdisciplinary perspective Through the interpretative prism of the concept of the Totality of Reason this book suggests an original analytical reading of Foucault's thought This book addresses Foucault's characterizations of the Enlightenment asking whether the developmental history of the modern conception of knowledge from the Renaissance to the Enlightenment warrants the conclusion he draws From the perspective of a critical evaluation of Foucault's thesis on the crisis of modernity the book examines whether Foucault the philosophical and social critic truly belongs to those intellectual trends known as deconstruction and post modernism that advocate a wholesale rejection of the project of modernity demonstrating how a classification of this kind contributes to an impoverishment of our understanding of Foucault's thought This book will attract the attention of readers interested in Foucault and what is broadly perceived to be the crisis of modernity It will appeal to scholars and advanced students of sociology political philosophy and political science psychology philosophy interdisciplinary studies and cultural studies

Understanding Foucault, Understanding Modernism David Scott, 2017-02-23 Michel Foucault remains to this day a thinker who stands unchallenged as one of the most important of the 20th century Among the characteristics that have made him influential is his insistent blurring of the border separating philosophy and literature and art carried out on the basis of his confronting the problem of modernism which he characterizes as a permanent task To that end even his most explicitly historical or strictly epistemological and methodological enquiries which on their surface would seem not to have anything to do with literature are full of allusions to modernist writers and artists like Mallarmé Baudelaire Artaud Klee Borges Broch sometimes fleetingly sometimes more extensively as is the case with Foucault's life long devotion to Bataille Klossowski Blanchot and de Sade Understanding Foucault Understanding Modernism shows on the one hand that literature and the arts play a fundamental structural role in Foucault's works while on the other hand it shifts to the foreground what it presumes to be motivating Foucault the interrogation of the problem of modernism

Literature and Spirit David Patterson, **In Defense of the Psychological** John William Miller, 1983 Dry wit and analytic adroitness This survey contains some rich and stimulating material Kirkus Reviews **Reasoning With Who We Are** Mark Redhead, 2014-04-04 Public reasoning a manner of democratic deliberation that can generate meaningful conceptions of justice the collective good and other unifying political values among individuals subscribing to varied and contrasting doctrines has been a perennial concern among political philosophers from historical thinkers such as Immanuel Kant to contemporary theorists like John Rawls and Jürgen Habermas In this ambitious study Mark Redhead explores versions of public reasoning in the works of six of the most important voices in contemporary political theory Alasdair MacIntyre Charles Taylor Hannah Arendt Seyla Benhabib Michel Foucault and William E Connolly He identifies an important but as of yet unappreciated version of public reasoning one that provides

creative and effective responses to questions at the forefront of liberal democratic political thought human rights secularity and global governance From Violence to Speaking Out Leonard Lawlor,2016-08-30 Drawing on a career long exploration of 1960s French philosophy Leonard Lawlor seeks a solution to the problem of the worst violence The worst violence is the reaction of total apocalypse without remainder it is the reaction of complete negation and death it is nihilism Lawlor argues that it is not just transcendental violence that must be minimised all violence must itself be reduced to its lowest level He offers new ways of speaking to best achieve the least violence which he creatively appropriates from Foucault Derrida and Deleuze and Guattari as speaking freely speaking distantly and speaking in tongues **The World as Will and Idea** Arthur Schopenhauer,1883 **Stewardship of the Land** Wendy Lathrop,1996 *Hamlet* William Shakespeare,1905 **The Classical World** ,1926 New Discoveries in Palmistry ...
