## **Nature Mysticism:**

**Nature Mysticism** John Edward Mercer, 2019-11-26 In *Nature Mysticism* John Edward Mercer embarks on an intellectual exploration of the profound connections between nature and the human experience. The book is characterized by its lyrical prose and philosophical depth, weaving together elements of mysticism, ecology, and spirituality. Mercer draws upon a rich tapestry of literary traditions from Romantic poets to contemporary environmental thinkers to illustrate how nature can serve as a conduit for transcendental insights. Each chapter invites readers to contemplate their own relationship with the natural world, inviting an experiential understanding that transcends mere observation. Mercer, an accomplished essayist and scholar of comparative literature, has spent years studying the intersection of literature and environmental philosophy. His background in both Western and Eastern mystical traditions informs his writing, allowing him to synthesize complex ideas in a manner that is both accessible and thought-provoking. This dual perspective has led him to appreciate the timelessness of nature's influence on human consciousness and the essential role it plays in shaping our spiritual lives. For readers seeking a deeper connection with the natural world and a richer understanding of the mystical dimensions of life, *Nature Mysticism* is an essential read. Mercer's thoughtful examination challenges us to reconsider our place within the ecosystem, inspiring readers not only to reflect on their experiences but also to engage actively with the wonders of the world around them.

## **The Role of Nature Mysticism in Building Ecological Theology and Ethics** Rachel M.

Knight-Messenger, 2025-12-11 This book argues that nature mysticism is an excellent source for building an ecological ethic that takes seriously the human responsibility in creation. *Nature Mysticism* J. Edward Mercer, 2011-04-30 The aims of this study of Nature Mysticism and the methods adopted for attaining them are sufficiently described in the introductory chapter. It may be said by way of special preface that the nature mystic here portrayed is essentially a modern from the Preface. Introduction A wave of Mysticism is passing over the civilized nations. It is welcomed by many, but more it is mistrusted. Even the minds to which it would naturally appeal are often restrained from sympathy by fears of vague speculative driftings and of transcendental emotionalism. Nor can it be doubted that such an attitude of aloofness is at once reasonable and inevitable. For a systematic exaltation of formless ecstasies at the expense of sense and intellect has a tendency to become an infirmity if it does not always betoken loss of mental balance. In order therefore to disarm natural prejudice let an opening chapter be devoted to general exposition of aims and principles. The subject is Nature Mysticism. The phenomena of nature are to be studied in their mystical aspects. The wide term Mysticism is used because in spite of many misleading associations it is hard to replace. Love of nature is too general, cosmic emotion is too specialised. But let it at once be understood that the Mysticism here contemplated is neither of the popular nor of the esoteric sort. In other words it is not loosely synonymous with the magical or supernatural nor is it a name for peculiar forms of ecstatic experience which claim to break away from the spheres of the senses and the intellect. It will simply be taken to cover the causes and the effects involved in that wide range.

of intuitions and emotions which nature stimulates without definite appeal to conscious reasoning processes Mystic intuition and mystic emotion will thus be regarded not as antagonistic to sense impression but as dependent on it not as scornful of reason but merely as more basic and primitive    **Nature Mysticism** J. **in Building Ecological Theology and Ethics** Rachel M. Knight-Messenger,2025-12-11 As eco theologians continue to address the current ecological crisis there is continued effort to examine ways Christianity can contribute to building an ecological theology and ecological ethic that takes seriously the human responsibility for creation In this book the author contributes to ecological theology and ethics by examining how a unique type of Christian mysticism nature mysticism can be incorporated into ecological ethics The rich tradition of Christian nature mysticism as examined in the mystical theology of both Pierre Teilhard de Chardin and Thomas Merton demonstrates how a nature mystic becomes conscious of the presence of God within the cosmos and that this consciousness subsequently elicits not only a deep awareness of the sacredness and interconnectedness of all creation but also contains an ethical imperative that strives to build an ethic of creation Moreover since this nature mysticism can employ a cosmology of cosmogenesis the opportunity to bring these together in ecological theology can further strengthen ecological ethics In essence the author argues that nature mysticism is an excellent source for building an ecological ethic that takes seriously the human responsibility in creation    **The Philosophy of Mysticism**
