Nature Tendency Of Free Institutions:

Sorghum Peter Collier, 1884 Considerations Upon the Nature and Tendency of Free Institutions Frederick Grimké, 1848 **The Rights of Women in a Democratic Republic** Frederick Grimke, 2016-08-12 Frederick Grimke is the last person anyone including scholars who have recounted the careers of his two sisters Sarah and Angelina in the nineteenth century feminist movement would have suspected of having a sympathetic interest in womens rights An intellectual with quietly held opinions on secession and slavery reflecting his antebellum southern heritage who spent the last two decades of his life pursuing interests in political theory he was famous among fellow townsmen for his aversion to female company But his affection for his sisters and his admiration for what they had achieved in their public careers inspired this essay The Rights of Women in a Democratic Republic in which he made a remarkably prescient forecast of the vocational future of American women including married women with children once given access to higher education The essay was nearly lost Grimke himself had doubts about it and after appealing to Sarah to help him resolve them died in 1863 leaving an instruction that it be omitted from the edition of all his writings which his executor published in 1871 in a cheaply fabricated volume with very small distribution Melhorns Epilogue reveals who the executor was and how he came to disobey the order for the essays suppression With new research findings revealing Grimkes influence on his sister Sarahs writings and the discovery of feminist issues as an undergraduate debate topic at Yale where he was educated Melhorns Commentary broadens the scope of the history of womens rights in America North-American Review and Miscellaneous Journal , 1849 **The Nature and Tendency of Free Institutions** Frederick Grimké, 1848 **Considerations Upon the Nature and Tendency of Free Institutions (Classic Reprint)** Frederick Grimke, 2017-11-29 Excerpt from Considerations Upon the Nature and Tendency of Free Institutions The reason then why it is of so much importance to examine and understand the structure of society and not merely the machinery of government is because at the present day more than at any former period the political institutions are molded by the manners It is true every form of government may strictly be said to depend upon the constitution of society upon the social organization in which it has taken root But this dependence is of a totally different character in different countries In some the manners exert a positive influence while In others they have properly a negative influence only In a commonwealth where the standard of popular intelligence is high and no impediment exists to the exercise of that popular authority which rightfully springs from such a state the people may truly be said to create and to uphold the government On the contrary where the population is sunk in ignorance and apathy government assumes the character of a self existing institution for there is no power beyond to direct and control it In one instance the will of society impresses itself as an active power upon the institutions both ordaining and controlling them in the other for defect of will the government is simply permitted to be what chance or circumstances originally made it The political institutions of Russia and the United States equally depend upon the social organization but in the former the influence is negative in the latter it is

direct and positive In the former the About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
