Rights of Nature in Europe Jenny García Ruales, Katarina Hovden, Helen Kopnina, Colin D. Robertson, Hendrik Schoukens, 2024-04-09 This book addresses the recognition of the Rights of Nature RoN in Europe examining their conceptualisation and implementation RoN refers to a diverse set of legal developments that seek to redefine Nature's status within the law gradually emerging as a novel template for environmental protection Countries like Ecuador and New Zealand each with distinct histories and ways of dwelling in the world have pioneered a new era in environmental governance by legally acknowledging rights or personhood for nature ecosystems and more than human populations In recent years Europe has witnessed growing interest in RoN with academic legislative and political initiatives gaining momentum A significant development is the September 2022 passage of a law in the Spanish Parliament granting legal personhood and rights to the Mar Menor a saltwater lagoon severely affected by environmental degradation Given the diversity in interpretations and articulations of Rights of Nature this edited volume argues that their arrival in Europe fosters different kinds of interactions across distinct areas of law knowledge practices and societal domains The book employs a multidisciplinary approach exploring these interactions in law and policy anthropology Indigenous worldviews and jurisprudence philosophy spiritual traditions critical theory animal communication psychology and social work This book is tailored for scholars in law political science environmental studies anthropology and cultural studies as well as legal practitioners NGOs activists and policy makers interested in ecology and environmental protection

Sustainability and the Rights of Nature Cameron La Follette, Chris Maser, 2017-06-01 Sustainability and the Rights of Nature An Introduction is a much needed guide that addresses the exciting and significant paradigm shift to the Rights of Nature as it is occurring both in the United States and internationally in the fields of environmental law and environmental sustainability This shift advocates building a relationship of integrity and reciprocity with the planet by placing Nature in the forefront of our rights based legal systems The authors discuss means of achieving this by laying out Nature's Laws of Reciprocity and providing a roadmap of the strategies and directions needed to create a Rights of Nature oriented legal system that will shape and maintain human activities in an environmentally sustainable manner This work is enriched with an array of unique and relevant points of reference such as the feudal notions of obligation principles of traditional indigenous cultivation the Pope Francis Encyclical on the environment and the new Rights of Nature based legal systems of Ecuador and Bolivia that can serve as prototypes for the United States and other countries around the world to help ensure a future of environmental sustainability for all living systems
