The Science of Breath and the Philosophy of the Tattvas Rāma Prasād,2015-06-16 Excerpt from The Science of Breath and the Philosophy of the Tattvas Translated From the Sanskrit With Introductory and Explanatory Essays on Nature s Finer Forces A word of explanation is necessary with regard to the book now offered to the public In the ninth and tenth volumes of The Theosophist I wrote certain essays on Nature s Finer Forces The subject of these essays interested the

readers of The Theosophist so much that I was asked to issue the series of essays in book form On reading the essays for this purpose I found that in order to make a book they must be almost entirely rearranged and perhaps re written However not being equal to the task of re writing what I had once written I determined to publish a translation of the book in Sanskrit on the Science of Breath and the Philosophy of the Tattvas As more over without these essays the book would have been quite unintelligible I decided to add them to the book by way of an illustrative introduction This accordingly has been done The essays in The Theosophist have been reprinted with certain additions modifications and corrections Besides I have written several more essays in order to make the explanations more complete and authoritative About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
