Stillwell, Estate of Colin L. Powell, 2003-03-14 In January 1944 sixteen black enlisted men gathered at the Great Lakes Naval Training Station in Illinois to begin a cram course that would turn them into the U S Navy's first African American officers on active duty The men believed they could set back the course of racial justice if they failed and banded together so all would succeed Despite the demanding pace all sixteen passed the course Twelve were commissioned as ensigns and a thirteenth was made a warrant officer Years later these pioneers came to be known as the Golden Thirteen but

at the outset they were treated more as pariahs than pioneers Often denied the privileges and respect routinely accorded white naval officers they were given menial assignments unworthy of their abilities and training Yet despite this discrimination these inspirational young men broke new ground and opened the door for generations to come In 1986 oral historian Paul Stillwell began recording the memories of the eight surviving members of the Golden Thirteen Later he interviewed three white officers who served with and supported the efforts of the men during World War II This book collects the stories of those eleven men Introduced by Colin L Powell they tell in dramatic fashion what it was like to be a black American

heritage complete with memories of his grandfather's poems of freedom that forced him to leave his ancestral home. In a final chapter the author looks back upon a full life and identifies the civil rights movement and efforts to gain equality for women as among those things of lasting importance.

**Types of Naval Officers** Alfred Thayer Mahan, 2008-03 Alfred Thayer Mahan 1840-1914 was a United States Navy officer, strategist and educator. His ideas on the importance of sea power influenced navies around the world and helped prompt naval buildups before World War I. Despite his success in the Navy, his skills in actual command of a ship were not exemplary and a number of vessels under his command were involved in collisions. On the other hand, the books he wrote ashore made him arguably the most influential naval historian. In 1885 he was appointed lecturer in naval history and tactics at the Naval War College. Before entering on his duties, Mahan was pointed to write his future studies and lectures on the influence of sea power. He organized his lectures into his most influential books: *The Influence of Sea Power upon History, 1660-1783* (1890) and *To a Modern Reader, his emphasis on sea-borne commerce may seem commonplace but the notion was much more radical in Mahan's time.* His other works include *The Interest of America in Sea Power, Present and Future* (1897) and *Types of Naval Officers* (1902).

*Career Compass* James A. Winnefeld, 2005 This useful companion volume to the Naval Institute's *Division Officer's Guide* and *Naval Officer's Guide* addresses an aspect of a naval officer's career that is every bit as important: navigating through the rocks and shoals of the Navy's promotion and assignment system. In a fresh and engaging style, Admiral Winnefeld explains how the Navy's assignment and promotion systems work and details how on-the-job performance plays a key role in both. His advice is timeless and his retirement status allows him to be completely candid. The book draws from many experts and astute observers of the Navy's system for advancing its best officers. For every officer aspiring to get the most out of his or her career, this book is a must reading.
