This book includes the presentation of 29 individual case studies of well-known personalities from Lady Gaga to Charles Darwin, each of which illustrates a key area or idea in personality psychology. Following the development of personality from the display of infantile temperament traits through the evolution of a person's life goals, values, and integrative stories that we construct and internalize to make narrative sense of our lives, *The Person* also includes: A thoroughly engaging story about what it means to be a good person and how people are different from one another; Comprehensive explorations of the latest research in personality science as applied to case studies of contemporary and historical persons; Practical discussions of how both human evolution and human culture shape our lives; A literate and compelling style that engages the reader in a personal relationship with the authors; Perfect for undergraduate students of personality psychology. *The Person: A New*
