Veitia,1995-08 *Global trends in wildlife management* International Union of Game Biologists. Congress,1991 *Singapore's Park System Master Planning* Raffaella Sini,2019-04-23 This book traces the evolution of Singapore s parks system from colonial to present times Further it contextualizes the design and planning of parks in the general discourse on western and eastern traditions early twentieth century western conceptions imported during colonialism modernism postmodernism and the contemporary ecological debate Park system planning products respond to national policies and result in structural urban elements and a range of park types Global western ideology and local issues have influenced park system planning and the physical design of individual parks over time However in Singapore the eastern literature has not addressed the development of parks and urban green spaces in terms of historical perspective The publication reveals the interrelations between visual representations and changing political ideologies Singapore s system of public parks is shown to represent an iconography created by the state Its set of constructed narratives elucidates on the potential social cultural and environmental roles of public parks However Singapore s park system presents a novel paradigm for expanding Asian cities characterized by evolving urban imaging strategies In framing Singapore s case study within the broader perspective of eastern applications

of western planning and design practices and constructions of nation in post colonial countries the manuscript establishes the contribution of the Singaporean model of design and planning of parks to the international debate
