**Guide to Low Intensity CBT Interventions** James Bennett-Levy, David Richards, Paul Farrand, Helen Christensen, Kathy Griffiths, David Kavanagh, Britt Klein, Mark A. Lau, Judy Proudfoot, Lee Ritterband, Jim White, Chris Williams, 2010-05-13 Mental disorders such as depression and anxiety are increasingly common. Yet there are too few specialists to offer help to everyone and negative attitudes to psychological problems and their treatment discourage people from seeking it. As a result many people never receive help for these problems. The Oxford Guide to Low Intensity CBT Interventions marks a turning point in the delivery of psychological treatments for people with depression and anxiety. Until recently the only form of psychological intervention available for patients with depression and anxiety was traditional one to one 60 minute session therapy usually with private practitioners for those patients who could afford it. Now Low Intensity CBT Interventions are starting to revolutionize mental health care by providing cost effective psychological therapies which can reach the vast numbers of people with depression and anxiety who did not previously have access to effective psychological treatment. The Oxford Guide to Low Intensity CBT Interventions is the first book to provide a comprehensive guide to Low Intensity CBT interventions. It brings together researchers and clinicians from around the world who have led the way in developing evidence based low intensity CBT treatments. It charts the plethora of new ways that evidence based low intensity CBT can be delivered for instance guided self help groups, advice clinics, brief GP interventions, internet based or book based treatment and prevention programs with supported provided by phone, email, internet, SMS or face to face. These new treatments require new forms of service delivery, new ways of communicating, new forms of training and supervision and the development of new workforces. They involve changing systems and routine practice and adapting interventions to particular community contexts. The Oxford Guide to Low Intensity CBT Interventions is a state of the art handbook providing low intensity practitioners, supervisors, managers, commissioners of services and politicians with a practical, easy to read guide indispensable reading for those who wish to understand and anticipate future directions in health service provision and to broaden access to cost effective
