Collecting for the Curriculum Amy J. Catalano,2015-09-28 If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book is the only one that offers explicit advice on collection development in curriculum collections for you. While there are many publications on the Common Core for school librarians and K-12 educators, no such literature exists for curriculum librarians at the postsecondary level. This book fills that gap, standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards (CCSS). The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices. The book begins with a primer on the CCSS and how curriculum librarians can support them. Discussion of the Standards is then woven through chapters arranged by content area that share research-based practices in curriculum development and instruction to guide you in curriculum selection. Material types covered include games, textbooks, children's literature, primary sources, counseling, and nonfiction. Additional chapters cover the management of curriculum collections, testing collections and instruction, and reference, as well as how to support and collect for special needs learners. Current practices in collection development for curriculum materials librarians are also reviewed. The book closes with a discussion of the future of curriculum materials.

Written by two fashion experts with deep experience in fashion shopping and styling, *How to Win at Shopping* is perfect for the woman who loves to shop; there is priceless information on every page. And perfect for the woman who hates to shop; here's the game plan to make it work. And for both hundreds of ways to save money, time, and aggravation. Page after page is filled with knowledgeable insider tips, the hows and whys of shopping smart. Always beware of prices in carpeted areas of a store. Three-quarter sleeves are always flattering. Sometimes, for certain items like T-shirts or knits, it makes sense to shop in the boys' department. For shoes, the best toe shape will always match your best neckline. Never shop in a hurry. When approaching a rack of clothing, always start with color. Always sit down when trying on clothing. There are style basics like how to find the perfect pair of jeans. Money-saving tips like why never to open a store credit card. Shopping rules like leave your jewelry at home when shopping. Plus tips for shopping online, in thrift stores, and around the holidays. And throughout, separate lists like the 15 secrets of finding clothes that make you look ten pounds thinner, the seven things a tailor can do, and six things a tailor can't, and the top ten wardrobe staples.
