For Beginners Investing:

Stock Investing for Beginners Bradley Banks, 2019 As an investor the stock market offers you the opportunity to increase your income without taking on the high risks that are usually associated when venturing in other businesses By selling stocks the company raises capital and is able to expand itself exponentially Therefore as an investor when you purchase shares of a company you have increased the worth of the company Thus it s a win win situation for both investor and owner The negative risk associated with the stock market can be small or large but it all depends on the number of shares of stock that you as an investor have bought Therefore if a company s stock shares lose value the stocks you have bought also loses value and if you decide to sell your stocks when the value is low you will have incurred a loss I will show you how you can minimize your risks and show you different ways in which investors are not only making money but are also building with the stock market
