Digital Inclusion Simeon Yates, Elinor Carmi, 2024-03-28. This collection presents policy and research that addresses digital inequalities, access, and skills from multiple international perspectives. With a special focus on the impact of the COVID-19 pandemic, the collection is based on the 2021 Digital Inclusion Policy and Research Conference, with chapters from both academia and civic organizations. The COVID-19 pandemic has changed citizens' relationship with digital technologies for the foreseeable future. Many people's main channels of communication were transferred to digital services, platforms, and apps. Everything went online: our families, friends, partners, health, work, news, politics, culture, arts, and protesting. Yet access to digital technologies remained highly unequal. This brought digital inclusion policy and research to the fore, highlighting to policymakers and the public the hidden challenges and impacts of digital exclusion and inequalities.
