**Adolescence in Context** Tara L. Kuther, 2025-08-26. *Adolescence in Context* by award-winning author Tara L. Kuther is a topically oriented text that connects learners to the science shaping our understanding of today's teenagers and young adults. Organized around three core themes: the centrality of context, the importance of research, and the applied value of developmental science, the text presents classic and current research along with foundational theories framed in real-life intersectional contexts such as sex, gender, race, ethnicity, ability, and socioeconomic status. With the new Second Edition, students can expect to gain a deeper understanding of adolescence that they can apply to their personal lives and future careers. *Social Studies Review*, 2005. [Review Journal of Philosophy & Social Science](#), 2003.

**The Media in Your Life** Jean Folkerts, Stephen Lacy, 2004. What do reviewers have to say about *Media in Your Life*? The text's strengths are on the emphasis on media history, convergence trends, and marketplaces. I also appreciate that the text is written at a sophisticated yet appropriate level for college students. Kim Smith, Iowa State University. The material covered is essential to the understanding of the current student in today's media culture. Jeanne Rollberg, University of Arkansas, Little Rock. Authors that forget that they are teachers and try too hard to pretend they're the students' friends don't do their content justice, nor do they model appropriate writing for students to emulate. Folkerts and Lacy don't fall into this trap; they present material credibly, appropriately, and yet readably. Rebecca Lind, University of Illinois, Chicago. The overall strengths of *Media in Your Life* are that it is exhaustively researched and attractively presented. The broad topic of mass media is effectively structured into an accessible format. Randall K. Pugh, Montana State University, Billings. The book's emphasis on knowledge students can use in navigating our complex culture is a major strength. Its

organization is logical It is well documented It provides a solid summary of most significant media related issues of the day William Lingle Linfield College The authors have a good framework to present an overview of the structure and process of mass communication in the U S The text is visually appealing and will attract students interest Elizabeth Perse University of Delaware Community College Review ,2001 **Library & Information Science Abstracts** ,2006 **School Psychology Review** ,1996 **Young People in a Digitalised World** Europarat,2018 Youth participation in the digitalised world is nowadays a topic of high interest in the public sphere The authors of this publication aim to bring new perspectives and varied visions to the key questions of understanding how young people interact with all the opportunities the digital space has to offer and how they can use this space for causes relevant not only for themselves but also for the democratisation of the societies in which they live By doing so the authors strive to build knowledge on this topic illustrating how the digitalisation of contemporary European societies simultaneously offers significant opportunities and poses considerable challenges Publisher s description **Social Issues in America** James Ciment,2006 More than 150 key social issues confronting the United States today are covered in this eight volume set in an A to Z format from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia Each includes historical background on the issue a discussion of current problems debates and possible future developments a chronology fairly extensive lists of references and Web sites to consult for further information a glossary and in most cases one or more selected primary documents **Maxcy-Rosenau-Last Public Health and Preventive Medicine: Sixteenth Edition** Matthew L.
