Leading Under Pressure - Psychology Tools for Coaching Matteo Rovatti, 2024-04-26 There are many ways stress can be viewed in our normal day to day struggle but I'll do my best to try not to treat it like a superficial topic and while I wrote this with the intention of it being clear and practical this is not a how to guide or a tutorial on deep breathing This is not the place where you'll find someone to tell you what to do it's a place for you to seek deeper understanding sometimes seeing something you might not like to see My purpose in this book isn't to eliminate all stress in our lives whether that's even possible but cutting the unnecessary one and learning to thrive under pressure for the stuff that matters to us To shape and shift our relationship with fear and stress so we can grow and develop with them This is what stress and leadership are to me stress is about self discovery and leading is about putting that self discovery into practice and giving back to others **Discourses of**

Globalisation, and the Politics of History School Textbooks Joseph Zajda, 2022-08-19 This book focuses on discourses of the politics of history education and history textbooks It offers a new insight into understanding of the nexus between ideology the state and nation building as depicted in history education and school textbooks It especially focuses on the interpretation of social and political change significant events looking for possible biases and omissions leadership and the contribution of key individuals and continuities The book discusses various aspects of historical narratives and some selected key events in defining identity and nation building It considers the role of historiography in dominant historical narratives It analyses history education in both local and global settings and its significance in promoting values education and intercultural and global understanding It is argued that historical narratives add pedagogies grounded in constructivist metacognitive and transformational paradigms have the power to engage the learner in significant and meaningful learning experiences informed by multiple discourses of our historical narratives and those of other nations *2008 Writer's Market*
