**The Complete Guide to Overcoming Traumatic Stress (ebook bundle)** Ann Wetmore, Claudia Herbert, John Marzillier, 2013-01-17 Terrible events are very hard to deal with. Those who go through a catastrophic life experience such as a car accident, assault, long term abuse, an illness or bereavement often feel permanently changed by the impact of what has happened. They become numb and shut off from those around them or grief or guilt may constantly weigh them down. Memories of horrifying scenes may intrude unexpectedly during waking hours while sleep may be disturbed by vivid unpleasant dreams. These two practical guides on trauma and how to cope with its aftermath are written by internationally recognised trauma experts. Overcoming Traumatic Stress Claudia Herbert Ann Wetmore Based on cognitive behavioural therapy CBT this self help guide offers a step by step programme to help you to understand your traumatic experience and how it's affecting you and to start to rebuild your life. Traumatic stress responses including Post Traumatic Stress Disorder PTSD result from a person's coping mechanisms having been completely overwhelmed by a terrible experience. Flashbacks may be so severe that sufferers may feel that they are losing their sanity and subsequently become ever more isolated in their distress. To overcome the effects of trauma it is necessary to change those reactions and begin to see events in a different light. This book demonstrates with practical advice and tested exercises how to find new effective ways of coping with and finally overcoming traumatic stress.

To Hell and Back John Marzillier In this innovative and engaging book world renowned psychologist John Marzillier dovetails first hand accounts from trauma sufferers with over 40 years of clinical practice to provide an honest human description of how trauma affects us at the time and also after the event. Whether discussing accounts of terrorist bombings, natural disasters, road accidents or physical attacks he looks at what these experiences do to us and offers practical and consoling advice for both sufferers and their loved ones on coping with the experience and developing resilience for the future.

**Trauma Therapy** Robert Durante, 2020-12-10

**Book Description** Do you want to change your life? Do you want to overcome past traumas? In general trauma is considered a physical and psychiatric condition. The profession of modern medicine and psychology deeply underestimates their deep interaction with pain treatment thus offering lip service to a connection between mind and body. The welded unity of body and mind which has formed the philosophical and practical foundations of most of the traditional healing systems in the world unfortunately does not provide our modern understanding and treatment. Oriental and shamanic healers have for thousands of years understood not only that the mind affects the body like in psychosomatic medicine but also that every organ system of the body has a psychic appearance in the body. Many stress treatments discuss the psyche through interaction and the chemicals of the mind with medicine. Both methods can be useful. However trauma is not healed and will never be treated in full unless we think of the essential role of the body. We must consider the impact of trauma and its key role in the repair of its effects on the body. Our attempts to heal injuries without this basis are insufficient and arbitrary. This book however encompasses all the aspects of developmental trauma healing. The areas covered are as under: Trauma an introduction, Healing Developmental Trauma, Road to recovery, Self awareness, Building support system and growth of mind and body. In order to explore further a thorough read of this book is a must. So do not wait and get your copy now!
