Hope for the Afflicted Jairo de Oliveira, 2023-06-29 There is a humanitarian disaster unfolding before our eyes a global tragedy that affects men women and children We are referring to the largest humanitarian crisis of our generation which has shaped our world and produced over 100 million people forcibly displaced globally Amid such a challenging scenario the global church is called to consider some unavoidable questions such as How can Christians respond to the current migration crisis What are some resources available to Christians to help them transform this tragic reality What are some strategic approaches for bringing hope to asylum seekers and refugees In this book Jairo de Oliveira deals with these and many other related questions based on his interactions with the Fur a Muslim people group from Darfur Sudan living as asylum seekers and refugees in Jordan in the Middle East After providing a thorough historical background and cultural analysis of Fur the author commends a contextualization model and fruitful practices that emerged from his study of the people Hope for the Afflicted serves as a manual and practical guide for those who feel called to engage the current migration crisis by proclaiming the hope of the gospel and discipling asylum seekers and refugees worldwide *Searching for Normal in the Wake of the Liberian War* Sharon Alane Abramowitz, 2014-07-28 At the end of Liberia's thirteen year civil war the devastated population struggled to rebuild their country and come to terms with their experiences of violence During the first decade of postwar reconstruction hundreds of humanitarian organizations created programs that were intended to heal trauma prevent gendered violence rehabilitate former soldiers and provide psychosocial care to the transitioning populace But the

implementation of these programs was not always suited to the specific mental health needs of the population or easily reconciled with the broader aims of reconstruction and humanitarian peacekeeping and psychiatric treatment was sometimes ignored or unevenly integrated into postconflict humanitarian health care delivery Searching for Normal in the Wake of the Liberian War explores the human experience of the massive apparatus of trauma healing and psychosocial interventions during the first five years of postwar reconstruction Sharon Alane Abramowitz draws on extensive fieldwork among the government officials humanitarian leaders and an often overlooked population of Liberian NGO employees to examine the structure and impact of the mental health care interventions in particular the ways they were promised to work with peacekeeping and reconstruction and how the reach and effectiveness of these promises can be measured From this courageous ethnography emerges a geography of trauma and the ways it shapes the lives of those who give and receive care in postwar Liberia
