International Bestseller Emotional Intelligence:

Working with Emotional Intelligence Daniel Goleman, 2000-01-04 Do you have what it takes to succeed in your career? The secret of success is not what they taught you in school. What matters most is not IQ, not a business school degree, not even technical know-how or years of expertise. The single most important factor in job performance and advancement is emotional intelligence. Emotional intelligence is actually a set of skills that anyone can acquire and, in this practical guide, Daniel Goleman identifies them, explains their importance, and shows how they can be fostered. For leaders, emotional intelligence is almost 90 percent of what sets stars apart from the mediocre. As Goleman documents, it's the essential ingredient for reaching and staying at the top in any field, even in high-tech careers. And organizations that learn to operate in emotionally intelligent ways are the companies that will remain vital and dynamic in the competitive marketplace of today and the future. Comprehensively researched, crisply written, and packed with fascinating case histories of triumphs, disasters, and dramatic turnarounds, *Working with Emotional Intelligence* may be the most important business book you'll ever read. Drawing on unparalleled access to business leaders around the world and studies in more than 500 organizations, Goleman documents an astonishing fact: in determining star performance in every field, emotional intelligence matters twice as much as IQ or technical expertise. Readers also discover how emotional competence can be learned. Goleman analyzes five key sets of skills and vividly shows how they determine who is hired and who is fired in the top corporations in the world. He also provides guidelines for training in the emotionally intelligent organization. In chapters that no one from manager to CEO should miss, *Working with Emotional Intelligence* could prove to be the most important reference for bottom-line businesspeople in the first decades of the 21st century.

Emotional Intelligence Daniel Goleman, 2009-07-20 Worldwide bestseller about why your emotional intelligence is more important than your IQ.

Emotional Intelligence Daniel Goleman, 2006-09-26 1 BESTSELLER The groundbreaking book that redefines what it means to be smart with a new introduction by the author. A thoughtfully written, persuasive account explaining emotional intelligence and why it can be crucial. USA Today Everyone knows that high IQ is no guarantee of success, happiness, or virtue, but until *Emotional Intelligence*, we could only guess why. Daniel Goleman's brilliant report from the frontiers of psychology and neuroscience offers startling new insight into our two minds—the rational and the emotional—and how they together shape our destiny. Drawing on groundbreaking brain and behavioral research, Goleman shows the factors at work when people of high IQ flounder and those of modest IQ do surprisingly well. These factors, which include self-awareness, self-discipline, and empathy, add up to a different way of being smart and they aren't fixed at birth. Although shaped by childhood experiences, emotional intelligence can be nurtured and strengthened throughout our adulthood with immediate benefits to our health, our relationships, and our work. The twenty-fifth anniversary edition of *Emotional Intelligence* could not come at a better time: we spend so much of our time online, more and more jobs are becoming automated and digitized, and our children are picking up new technology faster than we ever
