subjects has meant that policymakers and practitioners in the same fields sometimes struggle to digest the sheer volume of academic output. The same critical questions keep coming up but it is debatable the level to which there have been tangible improvements to our real state of knowledge. Knowledge in especially in terms of what best practices exist in the field and what can be translated versus what approaches remain context and location specific. Written in an accessible manner for the general interested reader, practitioners and policymakers in the field, this volume comprises edited versions of papers presented at CVE workshops run by the Centre of Excellence for National Security (CENS) at the S. Rajaratnam School of International Studies (RSIS), Nanyang Technological University, Singapore, in 2016 and 2017.
