Mastering The Infinite Game:

Mastering the Infinite Game Charles Hampden-Turner, Fons Trompenaars, 1997 **Mastering the Infinite game** Why is the West so frightened of Asia Here are the facts The economies of Asia continue to grow at bewildering speed with Singapore now overtaking the USA in GDP per person China is growing faster than any capitalist country has ever grown since measurement began Japan's GDP at 40 000 per person is now a third larger than the US's 28 000 Why do these economies continue to generate such extraordinary wealth **Mastering the Infinite Game** is a unique exploration of the social cultural and economic differences between East and West It goes beyond the usual studies of Eastern management to look at the underpinning philosophies and argues that western corporations play to win a finite game while the Tiger economies play to learn an infinite game

governance in the public sector by use of bootstrap algorithms Petter Ogland,2017-11-29 It has been argued that the reason seventy percent of all IT projects fail is due to lack of a formal system for guiding and monitoring IT decisions

Organisations having explicit IT governance systems are generally twice as successful as those with poor governance given the same strategic objectives but implementing IT governance can be difficult In this book Dr Ogland looks at the public sector and argues that the implementation of IT governance has to be done through bootstrapping The bootstrap algorithm BA is a time tested approach that is known to work but it is an approach that breaks with much of the logic of the public sector bureaucracy and is expected to be met with resistance By analysing patterns in a study of trying to convince a Norwegian public sector organisation to implement IT governance through the use of the BA the book is able to provide rich insights on what causes failure and how to make the implementation process succeed **Strategy & Business** ,2001
