Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet Cézanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history's most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes **Impressionists** Gordon Kerr, 2010-02-01 The paintings of the Impressionists have become among the most valuable and most celebrated in the world This is a selection of over 80 masterworks which will appeal equally to those already familiar with the work of the Impressionists as well as those with less knowledge **The Impressionists** Carlton Books, 2013-04-02 Of all the artistic movements

Impressionism is among the most popular and well loved. These eight glorious and ready to frame reproductions include such masterpieces as Monet's Waterlily Pond, Wild Poppies and Houses of Parliament; Pissarro's The Boulevard Monmartre at Night; Manet's A Bar at the Folies Bergère; Renoir's Path in a Wood and Oarsmen at Chatou; and Degas' Blue Dancers.

*Origins of Modern Art* Rosalind Ormiston, 2015-10-06

The tender roots of Modern Art can be seen in the wild sea paintings of Turner as early as the mid 19th Century but it took the Impressionists and the Pre Raphaelites to break the elite classical mode until the final blows were dealt in the early 1900s by Kandinsky, Klee and Picasso. Modern Art was a reaction to the gathering pace of industrialisation of the late Victorian world and the desire for art that looked forwards not behind to classical myth and legend. But once the beast of modernism had been unleashed it fragmented into many different forms each of which are explored in this striking, heavily illustrated new book.
