Matabele War:

The Matabele War Stafford Glass, 1968 Matabele Chris Ash, 2016-02-29 Sandwiched between the glamour and heroism of the Zulu War and the controversy and bitterness of the Boer War the Matabele Wars of the 1890s have long been southern Africa's forgotten colonial wars. There is no denying that the Matabele Wars are a lot less romantic and photogenic than the Zulu War. The wonky unreliable Gatlings and ludicrous rocket batteries of the Zulu War had given way to the highly effective Maxim guns that were seeing major action for the first time. Nevertheless the Matabele warriors showed every bit as much heroism, determination and Ian as had their kinsmen in the Zulu War. With oft claimed links to the infamous Jameson Raid the origins of the second Matabele War are as fascinating and controversial as those of the first and it was a dirty hard fought guerrilla war more akin to the African bush wars of the 1960s and 70s than those waged at the height of the colonial period. The brutal murders of women and children committed by the insurgents and the widespread use of dynamite to entomb rebels in their subterranean hiding places both sparked fury and condemnation at the time but aside from the butchery actions such as the Mazoe Patrol were as heroic as anything of the age. This is the first history which covers both wars in a single volume allowing the reader to see how they flowed seamlessly into one another and how they impacted on southern Africa. Written in Ash's typical no holds barred style the book thunders along rather than tiptoeing round modern political niceties. Special attention is given to the many outlandish characters of the period old school savage tyrant Chief Lobengula the ambitious and ever scheming Cecil Rhodes and the rascally Dr Jameson of course but also men like Captain Lendy one of very few men in history to have died from putting a shot. Frederick Selous the archetypal great white hunter Kagubi the infamous witch doctor who whipped up so much trouble during the rebellion not to mention the likes of Plumer, Forbes, Wilson, Colenbrander, Burnham, Baden Powell, Gifford and the extraordinary Maori Hamilton Browne. Indeed the cast is probably the most fascinating part of the tale adventurous young Anglo Saxons from every corner of the empire and a few old Indian fighters from the American West who all found themselves thousands of miles from home facing a valiant and terrifying enemy. Rhodes and Rhodesia Arthur Keppel-Jones, 1983 This volume deals with the conquest and colonization of Zimbabwe and the establishment of Southern Rhodesia from the beginnings of British involvement in Bechuanaland to the death of Cecil Rhodes. Its emphasis is on the white invaders and its chief concern is white individuals their motives, actions and influence on events. The British South Africa Company and the irregularity of its financial and political operations are dealt with in detail. Keppel Jones also discusses the development in the midst of the indigenous population of an alien white society and state from their crude beginnings to their emergence in a form still recognizable today. The reader is led to conclude that by 1902 Southern Rhodesia was already set on the road that would lead to the upheavals of the second half of the twentieth century. The author examines the racial consciousness and prejudice of the white society and addresses an important question why did the imperial government grant a royal charter to the BSA?

Company The facts show conclusively that the imperial government had little interest in Central Africa or care for its fate except when foreign competition appeared Keppel Jones also reveals the important role played by black troops employed by the Company in suppressing the rebellions of 1896 7 For opposite reasons neither blacks nor whites have been willing to recognize this on the other hand the habit of the men on the spot of making and carrying out decisions without regard to their superiors in London is a commonplace of imperial history One of the main themes of the book is the tension between the unofficial imperialists straining at the leash and the Colonial Office struggling to hold them back Rhodes and Rhodesia is based on extensive use of public records mainly in the Public Record Office London and the National Archives of Zimbabwe of collections of private papers and of contemporary published works Arthur Keppel Jones is professor emeritus of history at Queen s University Harmsworth History of the World Arthur Mee,1907 **Harmsworth History of the World:**
