**Mineralization and Sustainable Development in the West African Craton** T. Aifa,2021-07-22 This Special Publication combines results obtained by interdisciplinary groups from numerous academic institutions working on Paleoproterozoic formations to decipher the origins of the main mineralization resources in the West African Craton WAC and their impacts on African economic development Structural geophysical sedimentological stratigraphical geochemical petrophysical and mineralogical analyses have been used to highlight the complexities involved in mineralization emplacement and its origin and evolution within the WAC

Fourteen articles contribute to new knowledge in mineral research. They show that the geodynamic evolution of the WAC is complex from one area to another. It involves subduction, collision, and obduction during several deformation phases ranging from Birimian 2.3-2.0 Ga to Pan African 650-450 Ma events. Various modelling techniques, when integrated, help in understanding the mechanisms of mineralization emplacement, some of which are still a matter of debate. The challenge for further studies is mitigation for sustainable development that can be appropriately used to minimize such damage.

**Comprehensive Guide to Hallucinogenic Plants** Noureddine Chaachouay, Abdelhamid Azeroual, Lahcen

Zidane, 2025-03-12 Hallucinogens have been traditionally used to encourage spiritual growth, heighten perception, inspire personal development, or expand reality. Comprehensive Guide to Hallucinogenic Plants focuses on ethnobotanical aspects of hallucinogenic plant species, featuring history on how they were used in ancient societies, identifying chemical compounds, and explaining modern medicinal uses as well as conservation initiatives. The book emphasizes the importance of understanding the cultural, countrywide, environmental, and scientific importance of these medicinal plants. Some of the 50 plants covered in this work include ayahuasca, ginger, kanna, dream herb, iboga, peyote, canary broom, coral tree, catnip, wild rue, kava, mandrake, and golden angel's trumpet. Each chapter includes information on historical plant use and identification of chemical compounds, and explains modern medicinal uses. The text highlights the importance of studying, evaluating, and utilizing these plants not in isolation but from a global perspective. Comprehensive Guide to Hallucinogenic Plants appeals to plant scientists, botanists, ethnobotanists, pharmacologists, and those with an interest in alternative or herbal medicine.
