Lama Dudjom Dorjee, 2013-12-03 Meditation is the key to meaningful Buddhist practice but establishing a solid foundation requires skill and sustained effort. In simple and inviting language this book shows how to develop a successful meditation practice. In Tibetan Buddhism developing a consistent and sustained meditation practice is the first step toward discerning the true nature of reality as taught by the Buddha. Lama Dudjom Dorjee encapsulates the Buddha's teaching in terms that are accessible and encouraging for beginning meditators covering topics from establishing a proper meditation posture to realizing the luminous and spacious qualities of the mind. Chapters discuss The life of the Buddha, The first turning of the wheel of dharma, The four noble truths and the eightfold path, Proper meditation posture, The nine stages of shamatha or resting the mind, Common obstacles to shamatha and their antidotes, Benefits of developing shamatha, The subsequent stages of practice including insight, vipashyana meditation and mahamudra.

Automata, Languages and Programming Michael S. Paterson, 1990 In subvolume 27C1 magnetic and related properties of binary lanthanide oxides have been compiled. This subvolume covers data obtained since 1980 and can therefore be regarded as supplement to volume III 12c. While in the previous volume the majority of magnetic data was obtained either from magnetometric measurements or from neutron diffraction for the present data the main emphasis is devoted to related properties without which however the understanding of classical magnetic properties is impossible. A second part 27C2 will deal with binary oxides of the actinide elements.
