Losing Innocence:

Reflections on Ethics and Responsibility Zachary J. Goldberg, 2017-02-06 The original essays in this book address the influential writings of Peter A French on the nature of responsibility ethics and moral practices French's contributions to a wide spectrum of philosophical discussions have made him a dominant figure in the fields of normative ethics meta ethics applied ethics as well as legal and political philosophy Many of French's deepest insights come from identifying and exploring the scope and nature of moral responsibility and human agency as they appear in actual events real social and cultural practices as well as in literature and film This immediacy renders French's scholarship vital and accessible to a wide variety of audiences The authors recognized for their own contributions to the understanding of the nature of morality and moral practices offer new and unique positions while exploring expanding and responding to those of French The final chapter is written by French in which he provides both new philosophical insight as well as some reflection on his own work and its influence This book will appeal to philosophers as well as advanced students and researchers in the humanities social sciences law and political science

Relationship Morality James Kellenberger, 2010-11-01 **War and Moral**

Dissonance Peter A. French, 2010-10-18 This collection of essays inspired by the author's experience teaching ethics to Marine and Navy chaplains during the Iraq War examines the moral and psychological dilemmas posed by war The first section deals directly with Dr Peter A French's teaching experience and the specific challenges posed by teaching applied and theoretical ethics to men and women wrestling with the immediate and personal moral conflicts occasioned by the dissonance of their duties as military officers with their religious convictions The following chapters grew out of philosophical discussions with these chaplains regarding specific ethical issues surrounding the Iraq War including the nature of moral evil forgiveness mercy retributive punishment honour torture responsibility and just war theory This book represents a unique viewpoint on the philosophical problems of war illuminating the devastating toll combat experiences take on both an individual's sense of identity and a society's professed moral code

Responsibility Matters Peter A. French, 1992 Most of us spend a fair amount of time trying to avoid responsibility That's not too astounding What is surprising says Peter French is

that we tend to dodge the good variety as well as the bad
