**The Lost Footsteps, Etc. [With a Map.]** Silviu CRACIUNAS,1963    Lost Footsteps Bel Mooney,1993    **The River of Lost Footsteps** Thant Myint-U.,2006 When the prodemocracy uprising was finally crushed there was a muted international response The United States Japan the United Kingdom and Germany suspended bilateral aid But there was no pronounced outcry certainly not from the general public in Europe or in North America Nothing like the reaction to the massacre at Tiananmen Square a year later There were no calls for United Nations action No urgent transatlantic diplomacy Part of the reason was simple there were no television cameras present in the country at the time There was no CNN and no nightly news stories showing the depth of popular feeling or the violence that followed There were no pundits demanding retribution and little attention on Capitol Hill or at Westminster Much of the uprising had been in late August and early September just in time for the late summer holidays But the lack of response wasn't just attributable to the absence of television or to the fact that important people were vacationing in Martha's Vineyard or Tuscany It was also because Burma was almost entirely unknown To the extent that it was thought about at all it had the image of an exotic and dreamy backwater a gentle Buddhist country lost in time and quietly isolated hardly the sort of location for a foreign policy crisis It was an offbeat tourist destination unspoiled compared with neighboring Thailand perhaps even a model of an alternative approach to life unhurried and without the extremes of modern capitalism and communism Prodemocracy demonstrations in Burma It was like hearing about a coup in Shangri La What was to be done with a place like that Book jacket    **Lost Footsteps. A novel** Joseph VEREY,1869    The Lost Footsteps Silviu Craciunas,1961 Rumanian chronicles his escapes and prison experiences for having aided resistance groups    **Lost Footsteps** Walter Sweetman,2023-12-23 Reprint of the original first published in 1875    *Lost Footsteps* Dan MacDonald,2020-11-25 Tim reads a poem in a magazine at an airport on returning home from a war in the Middle East war that gave him pause about the steps he took in the past On his arrival home his family and the people in his hometown acted strangely towards him They were put off by returning from the war He found himself caught in a triangle between his high school love and the love he met during the war His journey takes him to find the truth about his past and the people around him while searching for the love he left behind Tim Warner returned home from the war with more than the tragic experience of politics and war during his two year tour of duty During his time overseas he found his true love Venda and lost her which made him question himself his past and his footsteps After reading a poem at the airport in Germany on his way home On his return to his small hometown he found that things had changed since being overseas Not only did people act oddly towards him but His ex girlfriend had a baby with a long time school bully Ed Murphy an antagonist between Ashley and Tim But what about the Baby He flees his small hometown to Boston after close calls and strange behavior that kept happening In Boston he meets a fellow ex Marine Stanley from his unit in the Middle East who helps him find a job and a place to stay and helps him find Venda again    **Torture and Democracy**

Darius M. Rejali, 2007 This is the most comprehensive and most comprehensively chilling study of modern torture yet written Darius Rejali one of the world's leading experts on torture takes the reader from the late nineteenth century to the aftermath of Abu Ghraib from slavery and the electric chair to electrotorture in American inner cities and from French and British colonial prison cells and the Spanish American War to the fields of Vietnam the wars of the Middle East and the new democracies of Latin America and Europe As Rejali traces the development and application of one torture technique after another in these settings he reaches startling conclusions As the twentieth century progressed he argues democracies not only tortured but set the international pace for torture Dictatorships may have tortured more and more indiscriminately but the United States Britain and France pioneered and exported techniques that have become the lingua franca of modern torture methods that leave no marks Under the watchful eyes of reporters and human rights activists low level authorities in the world's oldest democracies were the first to learn that to scar a victim was to advertise iniquity and invite scandal Long before the CIA even existed police and soldiers turned instead to clean techniques such as torture by electricity ice water noise drugs and stress positions As democracy and human rights spread after World War II so too did these methods Rejali makes this troubling case in fluid arresting prose and on the basis of unprecedented research conducted in multiple languages and on several continents begun years before most of us had ever heard of Osama bin Laden or Abu Ghraib The author of a major study of Iranian torture Rejali also tackles the controversial question of whether torture really works answering the new apologists for torture point by point A brave and disturbing book this is the benchmark against which all future studies of modern torture will be measured

Gier,2014-08-20 Religiously motivated violence caused by the fusion of state and religion occurred in medieval Tibet and Bhutan and later in imperial Japan but interfaith conflict also followed colonial incursions in India Sri Lanka and Burma Before that time there was a general premodern harmony among the resident religions of the latter countries and only in the late nineteenth and twentieth centuries did religiously motivated violence break out While conflict caused by Hindu fundamentalists has been serious and widespread a combination of medieval Tibetan Buddhists and modern Sri Lankan Japanese and Burmese Buddhists has caused the most violence among the Asian religions However the Chinese Taiping Christians have the world record for the number of religious killings by one single sect A theoretical investigation reveals that specific aspects of the Abrahamic religions an insistence on the purity of revelation a deity who intervenes in history but one who still is primarily transcendent may be primary causes of religious conflict Only one factor a mystical monism not favored in Judaism Christianity and Islam was the basis of a distinctively Japanese Buddhist call for individuals to identify totally with the emperor and to wage war on behalf of a divine ruler The Origins of Religious Violence An Asian Perspective uses a methodological heuristic of premodern modern and constructive postmodern forms of thought to analyze causes and offer solutions to religious violence    **Catalogue of the ...
