## Lost In Care:

**Lost in Care - The True Story of a Forgotten Child** Jimmy Holland, 2017      *Lost in Care* Jimmy Holland, Stephen Richards, 2017-05-04 Jimmy Holland was born into a family suffering at the hands of their drunk and abusive father. At the age of just two weeks he was placed into care and the beginning of a life lived in a constantly changing environment of homes, authorities and institutions began. Let down and frequently abused, it wasn't long before Jimmy strayed onto the wrong side of the tracks. Before long the mold for a problem child was set. He quickly turned from substance abuse to drug use and in turn to crime. He soon became associated with the ringleaders of an infamous gang responsible for prison riots and hostage taking. A heart-felt, shocking and despairing insight into life as a state-raised boy. *Lost in Care* is the heart-rending tale of a man who has lost his childhood and also lost his way.

The officer, a general, has died having been murdered, leaving all his earthly goods to the child. But if the child is dead or cannot be located, the will directs these goods be given to a rogue named Sanderson who poses as John Simcoe. After many intrigues and adventures, Sanderson is exposed as the murderer and forger of a false will, and the rightful heir, the child, is found.

**Palliative Care for Care Homes** Christine Reddall, 2009 Care home workers increasingly work with people nearing the end of their lives, including people with medically complex conditions. However, many do not have a medical background and find that practical advice on how to address these people's very specific needs is scarce. In this book, Christine Reddall draws on almost four decades of nursing experience to create a clear and easy-to-read handbook primarily for workers caring for the dying in care homes, but which will also be of interest to family members caring for relatives with life-threatening conditions. This is a resource book to provide information on palliative care. It is designed primarily to help carers who work in care homes of all categories. To my knowledge, this is the first book written solely for carers working in care homes that addresses the issues of caring for someone with palliative care needs. However, people with whom I have spoken about this book or who have read parts of it have all said that it would also be a helpful resource to non-professional family carers who care for a family member in their own home. The style of this book is designed to be readable by all levels of carers, and I have endeavoured to keep the language and text as non-medical as possible. I have tried to put myself in the shoes of carers, especially those without medical training, and think of what they want to know when
