Creating Equitable Literacy Learning Environments Helen Adam, 2025-11-24

This groundbreaking book introduces the Model for Equitable Literacy Learning Environments (MELLE) a comprehensive framework that integrates evidence based instruction with culturally responsive pedagogy to create truly equitable learning environments for all children. Despite decades of reading instruction reform persistent achievement disparities remain between students from marginalised communities and their more privileged peers. Drawing on extensive international research across Australia the United Kingdom and the United States the author examines how three key dimensions quality instruction opportunity to read and authentic representation in reading materials must work together within supportive cultural and community contexts.
