It presents a wide range of essays that explore the theoretical material social cultural and political impacts of celebrity on and for Indigenous people. It questions and critiques the whitestream concept of celebrity and the very juxtaposition of Indigenous and celebrity and casts a critical lens on celebrity culture's impact on Indigenous people. Indigenous people who willingly engage with celebrity culture or are drawn up into it enter into a complex terrain of social relations informed by layered dimensions of colonialism racism sexism homophobia transphobia and classism. Yet this reductive framing of celebrity does not account for the ways that Indigenous people's own worldviews inform Indigenous engagement with celebrity culture or rather popular social and cultural forms of recognition. Indigenous Celebrity reorients conversations on Indigenous celebrity towards understanding how Indigenous people draw from nation specific processes of respect and recognition while at the same time navigating external assumptions and expectations. This collection examines the relationship of Indigenous people to the concept of celebrity in past present and ongoing contexts identifying commonalities tensions and possibilities **Wales**, 1913 *No Child Left Behind* United States. Congress. Senate. Committee on Health, Education, Labor, and Pensions, 2009 Losing Our Language Sandra Stotsky, 2002 This book argues that it is the incorporation of a multicultural agenda into basal readers the primary tool for teaching reading in elementary schools that has stunted American children's ability to read. The book shows how basal readers have been systematically dumbed down in an effort to raise minority students' self esteem. It contends that while elementary readers of the past featured excerpts from classic stories such as Arabian Nights and Robinson Crusoe with a complex vocabulary and sentence structure able to challenge the imagination and build reading skills today's basal readers present students with politically and ethnically correct stories whose language is virtually foreign and unable to engage students. According to the book drawing words from Swahili Spanglish and other trendy dialects to teach students with a shrinking English vocabulary is a symptom of this intellectual and cultural disorder. The book showcases interviews with teachers gives an in depth analysis of reading texts over the past 30 years and talks about how pressure groups have affected educational publishers. It points out that literacy cultural and verbal gives all students but particularly those from poor or minority backgrounds personal independence and achievement and the ability to participate fully in civic life. Each of the 11 chapters includes notes. NKA Native Voices Richard A. Gronds, George E. Tinker, David Eugene Wilkins, 2003 Native peoples of North America still face an uncertain future due to their unstable political legal and economic positions. Views of their predicament continue to be dominated by non Indian writers. In response a dozen Native American writers here reclaim

their rightful role as influential voices in debates about Native communities. These scholars examine crucial issues of politics law and religion in the context of ongoing Native American resistance to the dominant culture. They particularly show how the writings of Vine Deloria Jr have shaped and challenged American Indian scholarship in these areas since 1960s. They provide key insights into Deloria's thought while introducing some critical issues confronting Native nations. Collectively these essays take up four important themes: indigenous societies as the embodiment of cultures of resistance; legal resistance to western oppression against indigenous nations; contemporary Native religious practices; and Native intellectual challenges to academia. Essays address indigenous perspectives on topics usually treated by non Indians such as role of women in Indian society; the importance of sacred sites to American Indian religious identity; and relationship of native language to indigenous autonomy. A closing essay by Deloria in vintage form reminds Native Americans of their responsibilities and obligations to one another and to past and future generations. This book argues for renewed cultivation of a Native American Studies that is more Indian centered.
