## **Lost Country:**

**Every Lost Country** Steven Heighton, 2011-05-24 The longer you stare at the mountain the more it seems a refuge above human borders and distinctions and this constant dialogue of violence Up there he'd hoped he and Sophie could step away from trouble for a while Lewis Book a doctor with a history of embroiling himself in conflicts and his daughter Sophie travel to Nepal to join a climbing expedition One evening as Sophie sits on the border between China and Nepal she spots a group of Tibetan refugees fleeing from Chinese soldiers When shooting starts Dr Book rushes toward the ensuing melee ignoring the objections of Lawson the expedition leader who doesn't want to get involved and spoil his chance to be the first climber to summit Kyatruk Lawson is further enraged when Amaris a Chinese Canadian filmmaker recording the expedition joins Book with her camcorder in hand When the surviving Tibetans are captured just short of the border Lawson and Sophie look on helplessly as Book and Amaris are taken away with them down the glacier into China From that point Lawson continues his ascent and the fugitives are caught in an explosive and thrilling pursuit that will test their convictions courage and endurance From one of Canada's finest writers comes a literary page turner of the highest order Inspired by an actual event Every Lost Country is a gripping novel about heroism human failings and what love requires When is it acceptable to be a bystander and when do life and loyalty demand more

### **The Lost Country, Episode Three: "The Primeval World"**

Wayne Kyle Spitzer, 2021-02-12 First came the time storm which erased half the population Then came the Dinosaur Apocalypse How did it all begin Well that depends on where you were and who you ask In some places it started with the weather which quickly became unstable and began behaving in impossible ways In still others it started with the lights in the sky which shifted and pulsed and could not be explained Elsewhere it started with the disappearances one here a few there but increasing in occurrence until fully three quarters of the population had vanished Either way there is one thing on which everyone agrees it didn't take long for the prehistoric flora and fauna to start showing up often appearing right where someone was standing in which case the two were fused spliced amalgamated It didn't take long for the great Time displacement called the Flashback which was brief but had aftershocks like an earthquake to change the face of the earth Nor for the stories some long and others short some from before the maelstrom and resulting societal collapse and others after to be recorded Welcome to the Lost Country From The Primeval World I stood abruptly and raised the back of my hand but was restrained by Linda who had inserted herself between us That's enough Please Chris Enough She's not going to tell us She backed me away from the girl But I have an idea if you want to hear it I yanked away from her and began pacing furious at the stranger but really angry with myself for losing my cool in front of my crush whom I'd liked since the moment we'd met at the Coke machine in the Community Room about a month before the Flashback And for sending them Penny and Fred to the food mart in the first place ostensibly to save time but really just so I could be with Linda I I'm sorry Jesus It's just that She came to me and put a finger to my lips Shhh Forget it All right I tried to look away but she forced me to look at

her All right Listen We know which direction they went So why don t we just take Valerie here and go looking for them She turned to face the young woman She ll point us in the right direction won t you Little Miss Sunshine She glared at her menacingly If she ever wants to see home again And she was right of course I knew it and the girl knew it And so I reconfigured her bonds so she could travel and we doused ourselves in rex urine including Valerie for who knew how far we d have to go or how long we d be exposed to potential predators and we headed out walking up South Union Avenue toward the capitol even as Compies watched from the undergrowth and I thought I saw a face simian yet strangely human animal and yet somehow not peeking at us briefly from between two fronds Staring at us passively almost meditatively like a great ape behind glass or a manatee through green hazy water     *The Lost Country* Wayne Kyle Spitzer, 2021-09-29 First came the time storm which erased half the population Then came the dinosaur apocalypse How did it all begin That depends on where you were and who you ask In some places it started with the weather which quickly became unstable and began behaving in impossible ways In still others it started with the lights in the sky which shifted and pulsed and could not be explained Elsewhere it started with the disappearances one here a few there but increasing in occurrence until fully three quarters of the population had vanished Either way there is one thing on which everyone agrees it didn t take long for the prehistoric flora and fauna to start showing up often appearing right where someone was standing in which case the two were fused spliced amalgamated It didn t take long for the great Time displacement called the Flashback which was brief but had aftershocks like an earthquake to change the face of the earth Nor for the stories some long and others short some from before the maelstrom and resulting societal collapse and others after to be recorded Welcome to the world of the Flashback a world in which man s cities have become overgrown jungles and extinct animals wander the ruins You can survive here if you re lucky and if you re not in the wrong place at the wrong time which is everywhere all the time But what you ll never do is remain the same for this is a world whose very purpose is to challenge you for better or for worse It is a world where frightened commuters will do battle with murderous bikers even as primordial monsters close in and others will take refuge in an underground theme park only to find their worst enemy is themselves Where ordinary people ne er do wells on a cross country motorcycle trip a woman on a redeye flight to Hell a sensitive boy stricken with visions of what s to come will find themselves in extraordinary situations and a gunslinger and his telekinetic ankylosaurus will embark on a dangerous quest A world where travelers will be trapped with an unravelling President of the United States and a band of survivors will face roving packs of monsters and men in post apocalyptic Seattle where rioting teenagers will face deadly predators as well as their own demons while ransacking the nation s capital where a Native American warrior will seek to bury his past and offer an elegy for all the Earth in what remains of Las Vegas In short it is a world where anything can and will happen So take a deep dive into these loosely connected tales of the Dinosaur Apocalypse each of which can be read individually or as a part of the greater saga tales of wonder and terror death and survival blood and beauty Do it today before the apocalypse comes
