## **Lost Geography:**

**Lost Geography** Charlotte Bacon,2002-01-05 A heart breaking novel by a prize winning young writer In a debut novel that is a triumph of wit and feeling Charlotte Bacon explores the transitions that sixty years visit upon the members of an unforgettable family a Saskatchewan woman and her Scottish husband their plucky daughter who moves to Toronto and her remarkable daughter who lives in France with her Turkish English husband Lost Geography takes the complexity of migration as its central subject Why do landscape work and family lock some people in place and release others In settings both rural and urban these stalwart tragically dispersed yet resilient people respond not only to new environments and experiences but to the eruption of sudden loss and change As the settings and characters shift in this wise resonant book readers are invited to see how habits of survival translate from one generation to another How are we like our forebears How does circumstance make us alter what our heritage has told us is important With unfailing subtlety and elegance Lost Geography teaches us in a luminous sequence of intense personal dramas that what keeps us alive isn t so much our ability to understand the details of our past as having the luck and courage to survive the assaults of both the present and history

The Scientist in the Early Roman Empire Richard Carrier,2017-12-01 In this extensive sequel to *Science Education in the Early Roman Empire* Dr Richard Carrier explores the social history of scientists in the Roman era Was science in decline or experiencing a revival under the Romans What was an ancient scientist thought to be and do Who were they and who funded their research And how did pagans differ from their Christian peers in their views toward science and scientists Some have claimed Christianity valued them more than their pagan forebears In fact the reverse is the case And this difference in values had a catastrophic effect on the future of humanity The Romans may have been just a century or two away from experiencing a scientific revolution But once in power Christianity kept that progress on hold for a thousand years while forgetting most of what the pagans had achieved and discovered from an empirical anatomy physiology and brain science to an experimental physics of water gravity and air Thoroughly referenced and painstakingly researched this volume is a must for anyone who wants to learn how far we once got and why we took so long to get to where we are today Geography for the Lost Kapka Kassabova,2007 Kapka Kassabova is a young Bulgarian migr poet who writes in English but with a European imagination Her well travelled poems speak from different parts of the world and different moments of history but they always speak of the many ways to be lost and disoriented in a place in the past in fear in love in the very quickness of life The voices speaking here from a Roman housewife to a Chinese bar owner in Berlin or an Argentine DJ are the voices of the heart sick the culturally jet lagged people from photographs the tenants of lives cities and destinies This is what we all are have been or will be Public Space Reader Miodrag Mitrašinović,Vikas Mehta,2021-03-30 Recent global appropriations of public spaces through urban activism public uprising and political protest have brought back democratic values beliefs and practices that have been historically associated with cities Given the aggressive commodification of public re sources public space is

critically important due to its capacity to enable forms of public discourse and social practice which are fundamental for the well being of democratic societies Public Space Reader brings together public space scholarship by a cross disciplinary group of academics and specialists whose essays consider fundamental questions What is public space and how does it manifest larger cultural social and political processes How are public spaces designed socially and materially produced and managed How does this impact the nature and character of public experience What roles does it play in the struggles for the just city and the Right to The City What critical participatory approaches can be employed to create inclusive public spaces that respond to the diverse needs desires and aspirations of individuals and communities alike What are the critical global and comparative perspectives on public space that can enable further scholarly and professional work And what are the futures of public space in the face of global pandemics such as COVID 19 The readers of this volume will be rewarded with an impressive array of perspectives that are bound to expand critical understanding of public space    **American Empire** Neil Smith,2004-10-29 Annotation American Empire challenges our deepest assumptions about the rise of American globalism in the twentieth century and puts geography back into the History of what is called the American Century    **The Geography of Lost Things** Jessica Brody,2019-12-03 In this romantic road trip story perfect for fans of Sarah Dessen and Morgan Matson a teen girl discovers the value of ordinary objects while learning to forgive her absent father A lot can happen on the road from lost to found Ali Collins doesn t have room in her life for clutter or complications So when her estranged father passes away and leaves her his only prized possession a 1968 Firebird convertible Ali knows she won t keep it Not when it reminds her too much of all her father s unfulfilled promises And especially not when a buyer three hundred miles up the Pacific coast is offering enough money for the car to save her childhood home from foreclosure There s only one problem though Ali has no idea how to drive a stick shift But her ex boyfriend Nico does The road trip gets off to a horrible start filled with unexpected detours roadblocks and all the uncomfortable tension that comes with being trapped in a car with your ex But when Nico starts collecting items from the quirky strangers they meet along the way Ali starts to sense that these objects aren t random Somehow they seem to be leading her to an unknown truth about her father A truth that will finally prove to Ali that some things even broken things are worth saving    Course of Study in Geography Cincinnati Public Schools,1925
