*Radical Religious Thought in Black Popular Music. Five Percenters and Bobo Shanti in Rap and Reggae* Martin A. M. Gansinger,2017-12 This book is discussing patterns of radical religious thought in popular forms of Black music The consistent influence of the Five Percent Nation on Rap music as one of the most esoteric groups among the manifold Black Muslim movements has already gained scholarly attention However it shares more than a strong pattern of reversed racism with the Bobo Shanti Order the most rigid branch of the Rastafarian faith globally popularized by Dancehall Reggae artists like Sizzla or Capleton Authentic devotion or calculated marketing Apart from providing a possible answer to this question the historical shift of Bobo adherents from shunned extremists to firmly anchored personifications of authenticity in mainstream Rastafarian culture is being emphasized A multi layered comparative case study attempts to shed light on the re contextualization of language as well as expressed dogmatic perceptions and symbolism attitude towards other religious groups and aspects of ethnic discrimination Further analysis includes the visibility of artists and their references to practical and moral issues directly derived from two obscure ideologies that managed to conquer airwaves and concert halls

be devastating for the invasion fleet US Naval Intelligence also believed Japanese battleships Ise and Hyuga were operating out of Cam Ranh Bay A fast carrier sweep through the South China Sea was a potential answer with the bonus that it would strike the main nautical highway for cargo from Japan s conquests in Southeast Asia Task Force 38 would spend the better part of two weeks marauding through the South China Sea during Operation Gratitude a month long sweep of the area which launched air strikes into harbors in Indochina the Chinese coast and Formosa while targeting shipping in the high traffic nautical highway By the time the Task Force exited the South China Sea over 300 000 tons of enemy shipping and dozens of Japanese warships had been sunk With follow up air strikes against Japanese harbors and airfields in Formosa and the Ryukyu Islands the success of the sweep was unprecedented Using detailed battlescenes maps bird s eye views and diagrams of air strikes at Luzon this intriguing account of Task Force 38 s reign in the South China Sea proved that aircraft carriers could dominate the land based air power of the fading Japanese From the Korean War through to Vietnam to the campaigns in Iraq aircraft carriers could sail safely offshore knowing their aircraft would prevail on both sea and land Granite ,1902

web answer e this is another boundary behavior question with a mathematical slant to it the frequency of the incident and transmitted waves are always the same thus use  $f = v / \lambda$  to find the frequency of the incident wave  $2.2 \text{ Hz}$  the frequency of the transmitted wave is also  $2.2 \text{ Hz}$  the wavelength is  $3.0 \text{ m}$  and so the speed is  $f \lambda = 6.6 \text{ m/s}$
