Managing Existence In Naples Morality Action And Structure:

Managing Existence in Naples Italo Pardo, 1996-09-19 Neapolitan scholar Italo Pardo has produced a thoughtful and original account of the moral life of Naples where the ethics of family and neighborhood exist in tension with the constraints of church and government Dr Pardo shows how different ethical systems are accommodated in the choices of everyday life while success is measured by satisfying spiritual obligations as well as by material gain This is one of the very few ethnographic studies of a European city it questions old assumptions and raises fresh issues in the field of urban studies

Michal's Moral Dilemma Jonathan Y. Rowe, 2011-06-21 Michal s Moral Dilemma proposes that attention should be paid to the moral goods that feature in the text before arguing that the family a central feature of Old Testament morality should be understood as a set of practices rather than an institution Jonathan Rowe discusses the use of models of social action to comprehend the social world of the Bible and suggests a modified version of Bakhtin s theory of heteroglossic voices can help readers appreciate how authors present a moral vision by approving some characters actions whilst undermining others The discussion of Michal s moral dilemma adduces anthropological theories and ethnographic data concerning violence lying and the relationship between fathers and daughters Given that the conflicts of moral goods are resolved by characters choosing to act in a certain way Rowe enquires after the author s assessment of each character s moral choices arguing that Michal s loyalty to David and deception of Saul was counter cultural By approving of her choice the author affirms the importance of loyalty to the Davidic dynasty

The Palgrave Handbook of Urban Ethnography Italo Pardo, Giuliana B. Prato, 2017-11-14 These ethnographically based studies of diverse urban experiences across the world present cutting edge research and stimulate an empirically grounded theoretical reconceptualization The essays identify ethnography as a powerful tool for making sense of life in our rapidly changing complex cities They stress the point that while there is no need to fetishize fieldwork or to view it as an end in itself its unique value cannot be overstated These active engaged researchers have produced essays that avoid abstractions and generalities while engaging with the analytical complexities of ethnographic evidence Together they prove the great value of knowledge produced by long term fieldwork to mainstream academic debates and more broadly to society

unique cities across three continents Anthropology in the City Italo Pardo, Giuliana B. Prato, 2016-05-23 With half of humanity already living in towns and cities and that proportion expected to increase in the coming decades society both Western and non Western is fast becoming urban and even mega urban As such research in urban settings is evidently timely and of great importance Anthropology in the City brings together a leading team of anthropologists to address the complex methodological and theoretical challenges posed by field research in urban settings clearly identifying the significance of the anthropological paradigm in urban research and its centrality both to mainstream academic debates and to society more broadly With essays from experts on wide ranging ethnographic research from fields as diverse as China Europe India Latin and North America and South East Asia this book demonstrates the contribution that empirically based anthropological analysis can make to our understanding of our increasingly urban world Legitimacy Italo Pardo, Giuliana B. Prato, 2018-10-17 Global in scope this original and thought provoking collection applies new theory on legitimacy and legitimation to urban life An informed reflection on this comparatively new topic in anthropology in relation to morality action law politics and governance is both timely and innovative especially as worldwide discontent among ordinary people grows The ethnographically based analyses offered here range from banking to neighbourhoods from poverty to political action at the grassroots They recognize the growing gap between the rulers and the ruled with particular attention to the morality of what is right as opposed to what is legal This book is a unique contribution to social theory fostering discussion across the many boundaries of anthropological and sociological studies Journal of Mediterranean Studies ,1997
