perspectives on Manet's art by established scholars this volume places this compelling and elusive artist's painted œuvre within a broader cultural context and links his artistic preoccupations with literary and musical currents. Rather than seeking consensus on his art through one methodology or focusing on one crucial work or period this collection investigates the range of Manet's art in the context of his time and considers how his vision has shaped subsequent interpretations. Specific essays explore the relationship between Manet and Whistler, Emile Zola's attitude toward the artist, Manet's engagement with moral and ethical questions in his paintings and the heritage of Charles Baudelaire and Clement Greenberg in critical responses to Manet. Through these and other analyses this volume illuminates the scope of Manet's career and indicates the crucial position the artist held in generating a modernist avant garde aesthetic.
