## **Manipulatory Politics:**

Manipulatory Politics Robert E. Goodin, 1980-01-01      **Manipulating Democracy** Wayne Le Cheminant, John M. Parrish, 2010-09-22 Manipulation is a source of pervasive anxiety in contemporary American politics. Observers charge that manipulative practices in political advertising, media coverage and public discourse have helped to produce an increasingly polarized political arena, an uninformed and apathetic electorate, election campaigns that exploit public fears and prejudices, a media that titillates rather than educates and a policy process that too often focuses on the symbolic rather than substantive. Manipulating Democracy offers the first comprehensive dialogue between empirical political scientists and normative theorists on the definition and contemporary practice of democratic manipulation. This impressive array of distinguished scholars—political scientists, philosophers, cognitive psychologists and communications scholars—collectively draw out the connections between competing definitions of manipulation, the psychology of manipulation and the political institutions and practices through which manipulation is seen to produce a tightly knit exploration of an issue at the heart of democratic politics.

**Across the Lines of Disciplines** Frans H. van Eemeren, Rob Grootendorst, J. Anthony Blair, Charles A. Willard, 2011-07-26 No detailed description available for Across the Lines of Disciplines      **Manipulation** Christian Coons, Michael Weber, 2014-07-01 In all groups from couples to nation states people influence one another. Much of this influence is benign for example giving advice to friends or serving as role models for our children and students. Some forms of influence however are clearly morally suspect such as threats of violence and blackmail. A great deal of attention has been paid to one form of morally suspect influence namely coercion. Less attention has been paid to what might be a more pervasive form of influence manipulation. The essays in this volume address this relative imbalance by focusing on manipulation examining its nature, moral status and its significance in personal and social life. They address a number of central questions: What counts as manipulation? How is it distinguished from coercion and ordinary rational persuasion? Is it always wrong or can it sometimes be justified and if so when? Is manipulative influence more benign than coercion? Can one manipulate unintentionally? How does being manipulated to act bear on one's moral responsibility for so acting? Given various answers to these questions what should we think of practices such as advertising and seduction?

**The Ethics of Influence** Cass R. Sunstein, 2016-08-24 In recent years nudge units or behavioral insights teams have been created in the United States, the United Kingdom, Germany and other nations.
