mysterious death of Alberto Nisman and the winners and the losers of neoliberal structural changes With a solid underpinning in sociological studies and criticism of the genre and its historical context Argentina Noir reveals how these novels are renovating the genre to engage pressing issues confronting not only Argentina but also countries throughout Latin America and around the globe This is a very significant contribution to the field It is a full and illustrative as well as authoritative guide to crime fiction and the novela negra in Argentina in the twenty first century with a particular focus on the literature s social and political thematics Philip Swanson author of *The New Novel in Latin America Politics and Popular Culture after the Boom*
